STATES GREFFE

STATES STRATEGIC PLAN 2009 – 2014 (P.52/2009): FIFTH AMENDMENT
(P.52/2009 Amd.(5)) – AMENDMENT

PAGE 2 –

After the inserted bullet point “Maintain the overall population of the island at its present level” *insert the words* “and make consequential changes in Priority 5 on page 17 by deleting the third bullet point in the section entitled ‘Why we must do this’ and the second and fourth bullet points in the section entitled ‘What we will do’.”

DEPUTY OF ST. MARY

REPORT

Since lodging my amendments it has been pointed out to me that parts of Priority 5 will be inconsistent with the additional Aim proposed by my Amendment (1) which asks members to agree to maintain the overall population at its current level. This minor amendment to my Amendment (1) makes consequential changes to Priority 5 to remove references on page 17 to an increased population level. The financial and manpower implications are unchanged.
