

As more details are revealed it only goes to show that State's Members & the public have been misled. The estimated cost continues to rise fuelled by expensive projects concerning the purchase of houses, fields the realigning of Westmount Road. along with the transfer of facilities to the old Les Quennevais School. Peoples Park will never be the same again. All this could have been avoided by using a site such as Warwick Farm or the Waterfront. The suspicion is that somebody will be making good money out of this at the cost of the poor tax-paying public. Is there any truth in the rumour that Warwick Farm has been promised in the future to Dandara for redevelopment?

All that I speak to now consider Overdale to be a bad choice for a hospital yet the project continues on its own merry way. I now despair as to how the Island is being governed & ruined by greed.
