Our answer to the Supermarket
debate is NO. Jersey doesn't
need one. (35)

It will only make local
business ~~more~~ more difficult than
it already is.

Job cutting has already been
done in many, many cases.

Surely, we should support
local business inc. Market,
farmers markets, farm shop
business - including ^{The} dairies,
which ^{all} produce such marvellous
products. All these are sited
and ^{give a} good spread I would
have thought.

The tax question is another
big no, to outside business.
NO TO ST. PETER OR ANYWHERE ELSE.
