Dear Senator Perchard and Panel

Jersey's Overseas Aid - call for evidence

All Overseas Aid should be connected with birth control somehow, perhaps in the form of clinics and birth control education. *and help.*

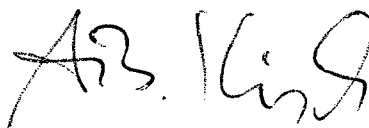

There is much talk about global warming but in reality it is the population explosion which is strangling the Planet.

Mrs. Jaquie Huet has a good approach to spending our taxes and saying we as a small Island should not have to compete with large nations.

Our Overseas Aid budget should not be increased because, unless tied to birth control, it is merely throwing more money into a bottomless pit.

The population of Ethiopia increases by 7,000 every 24 hours (Roger Bale, J.E.P. 7.7.2005) for example.

Yours sincerely,

Astrid Kisch (Mrs.)
