

**DE LA SALLE COLLEGE, BEAULIEU CONVENT SCHOOL AND
FCJ PRIMARY SCHOOL: LOANS (P.84/2000) - COMMENTS**

**Presented to the States on 20th June 2000
by the Policy and Resources Committee**

STATES OF JERSEY

STATES GREFFE

Comments

The Policy and Resources Committee supports this proposition, but the funds envisaged cannot be provided from the current Capital Programme which is fully committed on the funding of States projects. The Committee is also seeking to contain the Island's construction programme within an acceptable limit in order to combat inflation and population growth. The proposed construction projects must not exceed the ceiling which has been set for the construction industry. In accordance with that goal, any funding provided should be released at appropriate times, so as to correspond to the availability of capacity within the Island's construction industry.
