Dear Minister,

**Number of households in emergency accommodation and/or hotels**

The Panel would be grateful if you could provide it with information about households which are currently being housed in hotels and other emergency accommodation.

The Panel would like to understand the following:

- The number of households currently in emergency accommodation and/or hotels
- The average length of stay in emergency accommodation and/or hotels for households
- Why the affected households are unable to access suitable social housing or private accommodation
- Whether there is insufficient social housing or private accommodation of the size or type needed to house any of the households affected.

If it is not covered by the information provided above, the Panel would also request a breakdown of the types of household (numbers of people) which are impacted.

The Panel understands that it may be necessary to provide some of this information on a confidential basis.

We look forward to receiving your written response within five working days.

Yours sincerely,

Deputy Hilary Jeune  
**Chair, Environment, Housing and Infrastructure Panel**
