

I suppose the panel feels it necessary to be looking into this subject...but I find it completely ridiculous to even contemplate the idea of there being no cash usage in Jersey.

I lost my debit card recently so there was a time gap before I received my new card during which time it was necessary to use cash for EVERYTHING.

What would have been the alternative if I had not been allowed to use cash??

It makes NO SENSE at all to abandon usage of cash.

For the sake of COMMON SENSE...don't do it.
