

**WRITTEN QUESTION TO THE MINISTER FOR HEALTH AND SOCIAL SERVICES
BY DEPUTY R.J. WARD OF ST. HELIER
ANSWER TO BE TABLED ON TUESDAY 25th FEBRUARY 2020**

Question

Given the new health care model that is being developed, will the Minister advise what proportion of the new hospital will be categorised as providing an acute service and how much of it will be considered as a 'general hospital'?

Answer

All of the current services that need to be provided in a hospital setting will continue to be provided in that setting. Some services that do not require hospitalisation and that can safely be provided elsewhere could be provided in a community setting.
