

Morning my name is Lucy le maistre I'm emailing you as I feel like everywhere should accept cash as some people like myself can't get a debit card and have no choice but to use cash it's really good for the economy and for all the shops aswell and in all honesty shops and cafes shouldn't be refusing cash as all money has the queen's head on it and also most older people don't use cards they only like using cash it's really frustrating and I just don't understand why some places don't accept cash it's really out of order especially if you can't use a card or can't get one so please take this into consideration.
