

Tuesday, 5th October, 2010,

Dear Scrutiny Panel,

Before I sold my house, "Granville",
in "Raleigh Lane" St. Helier, I often
went to the Central Hospital to the eye
clinic that was opened by "Princess Ann."

Even before 9 am in the morning
in the park opposite the main entrance
to the Hospital, both male & females
are drinking in the park. Often
mothers etc are with their children

I sincerely think this is wrong
and should be stopped. Often the cows
hit the park!

On a brighter note, about a
month ago "Cuthy & Robert, Clement"
flew down for Glasgow, they live
in Ayrshire. Robert was with me
in the Royal Artillery in Germany in
1961, on the "Berlin Wall". On a
Friday after the schools went back
we went to "La Coupe" for a swim.
The temp of the sea was 18°C. It was
approx 11 am and we were the only
3 people there. There had been a spring
tide that morning of about 40 feet.

The only litter on the beach was
a broken beach ball washed up

which I thought ² was good!
into Do you think you could look
condoms, needles and the like, ie.
I used to be in the "Fire Service,"
when I took the 999 calls. Also we
used to have our boat at Corey.

I feel strongly that there should
not be fly tipping in our country
side also.

Yours faithfully,
"Mr, Robin, Guy, Stevenson"
~~Stevenson,~~
