R&O.66/2026.

Road Works (Supervisors, Operatives, Inspectors and Specified Road Works) (Jersey) Order 2026.

Minister for Infrastructure.

The Road Works (Supervisor, Operatives, Inspectors and Specified Road Works) (Jersey) Order 2026 makes provision prescribing qualifications that must be held, and training that must be undertaken, by persons carrying out certain functions under the Road Works and Events (Jersey) Law 2016 (the "2016 Law"). It also amends the Road Works (Specified Road Works) (Jersey) Order 2018 to provide that certain activities are "specified road works" if they are carried out in any circumstances (instead of in limited circumstances as is currently the case).

Part 1 (Articles 1 to 10)

Article 1 defines terms used in *Part 1*.

Article 2 requires the Minister for Infrastructure (the "Minister") to approve a person to carry out the functions of the awarding authority under the Order, and to publish their details. It also requires the Minister

to approve at least 1 person to carry out the functions of an authorised training provider under the Order, and to publish their details. *Article 2(2)* provides that the Minister may revoke either type of approval.

Article 3 provides for the content and form of a road works qualification card, defined in this Article as a document issued by an awarding authority, in relation to a person, confirming that the person has a basic road works qualification. *Article 3(3)(a)* provides that a road works qualification card is valid for 5 years beginning with the day on which it is issued (but it may be renewed).

Article 4 provides that the awarding authority may confer the basic road works qualification on a person if the person has completed, to the satisfaction of the awarding authority, basic road works training. This Article defines “basic road works training” as, in general terms, a training course in relation to planning road works in compliance with Jersey legislation and related codes of practice. The training course may be provided by the awarding authority or an authorised training provider, with the content approved by the Minister, or it may be an equivalent course provided by another person. In the latter case, it is for the awarding authority to determine whether or not a course meets the equivalence test.

Article 5 provides that the awarding authority may confer a specialist road works qualification on a person if the person has completed, to the satisfaction of the awarding authority, the corresponding specialist road works training. This Article defines “specialist road works training” as, in general terms, a training course relating to a particular specialist activity in the course of carrying out road works (the specialist activities are excavation and reinstatement, pavement surfacing, and the installation and use of temporary portable traffic signals). As with the basic road works training, a specialist road works training course may be provided by the awarding authority or an authorised training provider, with the content approved by the Minister, or it may be an equivalent course.

Article 6 prescribes the qualifications that must be held by a “qualified supervisor”, which is a person supervising certain types of road works in accordance with the requirements of Article 26 of the 2016 Law.

Article 7 prescribes the qualifications that must be held by a “trained operative”. In addition to the requirement under Article 26 of the 2016 Law for certain types of road works to be supervised by a qualified supervisor, paragraph (2)(b) of that Article requires that a “trained operative” is present at the site of those road works while activities are being carried out there.

Article 8 prescribes the qualifications that a person must hold, and the training that a person must have had, before they can be authorised by a highway authority to carry out an inspection or investigation under Article 43 of the 2016 Law.

Article 9 prescribes an exception to the requirement under Article 26(2) of the 2016 Law for a person carrying out certain types of road works to ensure that the road works are supervised by a qualified supervisor and that a trained operative is present at the site of those road works while activities are carried out there. *Article 9* provides that, in certain circumstances, a single individual may act as both the qualified supervisor and the trained operative in relation to the same road works.

Article 10 repeals the Road Works (Supervisors and Operatives) (Jersey) Order 2018, the Order previously made under Article 26 of the 2016 Law.

Part 2 (Article 11)

Article 11 amends the Road Works (Specified Road Works) (Jersey) Order 2018 to amend the table of activities that are “specified road works” for the purposes of the Road Works and Events (Jersey) Law 2016. The amendments have the effect that certain types of construction, maintenance and repair work, and tree felling, are “specified road works” if they are carried out in any circumstances (instead of in limited circumstances as is currently the case).

Part 3 (Article 12)

Article 12 gives the title of this Order and provides that it comes into force 7 days after it is made.

The Order was made on 14th April 2026 and came into force on 21st April 2026.

R&O.69/2026.

Road Traffic (Signs) (Jersey) Order 2026.

Minister for Infrastructure.

This Order replaces the Traffic Signs (Jersey) Order 1968 and the Road Traffic (Pedestrian Crossings) (Jersey) Order 1982. This Order is based partly on equivalent legislation in the UK (the Traffic Signs Regulations and General Directions 2016 (S.I. 2016/362)), with many signs and the rules governing them being adopted or adapted for use in Jersey. These UK signs are supplemented by specific local provisions.

Part 1 defines terms used in the Order (*Article 1*) and sets out how to interpret the tables that accompany the signs in *Schedules 1 to 7* (*Article 2*).

Part 2 contains general provisions about all categories of sign. *Article 3* provides that the Order does not affect the Minister’s power under Article 72(3) of the Road Traffic (Jersey) Law 1956 (“the Law”) to authorise the erection or retention of a sign that is not prescribed by the Order. *Article 4* makes it clear that the Order does not authorise a person, who is not otherwise authorised, to place anything on or near a road to warn traffic of a temporary obstruction.

Article 5 is about compulsory signs (the upright signs and road markings set out in Schedules 2 and 4). Non-compliance with a compulsory sign is an offence under the Law. This is because the signs:

- reflect a prohibition contained in an Order made under Articles 21, 46, 62 or 63 of the Law;
- are placed temporarily to deal with traffic congestion or danger under with Article 73 of the Law;
- are a temporary traffic restriction imposed under Article 67 of the Law; or
- are for regulating the movement of traffic or indicating the route to be followed by traffic (failure to comply being an offence under Article 74(1)(b) of the Law).

Article 5 also specifies certain compulsory signs that may be placed on or near a road only to indicate a prohibition contained in an Order as described above or a temporary traffic restriction.

Article 6 requires signs (including road markings and signals) to be of the sizes, colours and types shown in the diagrams in *Schedules 1 to 7*. These Schedules contain signs as follows:

Schedule 1 – warning signs: upright signs and associated plates;

Schedule 2 – compulsory signs: upright signs and associated signs or plates;

Schedule 3 – advisory signs: upright signs and associated plates;

Schedule 4 – compulsory signs: road markings;

Schedule 5 – advisory signs: road markings;

Schedule 6 – directional signs: upright signs;

Schedule 7 – light signals.

Article 7 provides that the dimensions of signs may be varied as indicated in that Article or the relevant Schedule. *Article 8* requires the letters, numerals and other characters incorporated in the signs to have the proportions and form set out in *Schedule 8*.

Article 9 prescribes the signs that may be attached to road maintenance vehicles and the conditions relevant to those signs.

Part 3 is about upright signs (as opposed to road markings and light signals). *Article 10* sets out what must happen at a ‘keep left’ or ‘keep right’ sign, and *Article 11* sets out the rules about stop, give way, filter in turn and mini roundabout signs.

Article 12 sets out the permitted variants of upright signs, the details of which are in the Schedules, and *Article 13* sets out requirements about the use of retroreflecting material on the signs. *Articles 14 to 20* contain provisions about the placing of upright signs that may or must be placed in combination with other signs, and *Article 21* deals with the mounting and backing of the signs.

Part 4 is about road markings. *Articles 22 to 25* and *27 to 29* describe the effect of the most important compulsory road markings. *Article 22* describes the significance of the give way marking and *Article 23* the significance of double white lines (no overtaking). *Articles 24 to 26* are about zig-zag lines at signal-controlled crossing facilities. *Article 24* sets out the rule prohibiting stopping, and *Article 25* describes the rule against overtaking. *Article 26* is about the placing of the zig-zag lines. *Article 27* explains the significance of bus stop markings, and *Article 28* the significance of box junction markings. *Article 29* is about road markings at the various types of crossing.

Article 30 introduces the permitted variants of road markings, the details of which are in *Schedules 4, 5 and 9*, and *Article 31* imposes illumination requirements on those markings. The heights of road markings are prescribed in *Article 32*. *Article 33* is about the placing and function of road markings.

Part 5 covers light signals and warning lights. Failure to comply with light signals is an offence under *Article 74(1)(a)* of the Law. *Article 34* deals with the standard form of traffic lights and their sequence of illumination, *Article 35* sets out the requirements for green arrow signals, and *Article 36* is about the requirements for portable light signals. The rules about what is to happen at light signals are set out in *Article 37*. *Article 38* gives the meaning of “stop line” in relation to light signals.

Article 39 covers the requirements for light signals (globes) at zebra crossings, and *Article 40* deals with the rules for light signals at other types of crossings. *Article 41* covers the meaning of vehicular light signals at or near pelican crossings. *Article 42* describes the requirements for warning lights at school crossing places. *Article 43* deals with the placing of light signals.

Part 6 contains some additional provisions about pedestrian crossings. *Article 44* requires pedestrians not to remain on crossings for longer than needed to use the crossing. *Articles 45 and 46* deal with the right of way of pedestrians over vehicles at zebra and pelican crossings, respectively.

Part 7 covers signs for temporary traffic management. *Article 47* is about the requirements for temporary signs, and *Article 48* deals with restrictions on their placement.

Article 49 sets out requirements in connection with flashing beacons, and *Article 50* is about warning lights and their requirements. *Article 51* sets out the requirements for traffic cones.

Part 8 deals with other miscellaneous matters: *Article 52* sets out the requirements for the signs to be used to indicate the beginning and end of part-time speed limits at schools.

Part 9 contains final matters. *Article 53* repeals the existing Orders, and *Article 54* makes amendments to other legislation that are consequential on this Order coming into force. *Article 55* validates any existing sign that complies with the Traffic Signs (Jersey) Order 1968 and any existing crossing under the Road Traffic (Pedestrian Crossings) (Jersey) Order 1982. This Article is deleted 10 years after this Order is made, at which point all signs and crossings must comply with this Order. *Article 56* names this Order and provides for it to come into force 7 days after it is made.

The Order was made on 15th April 2026 and came into force on 22nd April 2026.

R&O.70/2026.

Long-Term Care (Benefits) (Jersey) Amendment Order 2026.

Minister for Social Security.

This Order amends the Long-Term Care (Benefits) (Jersey) Order 2014 (the “2014 Order”) to re-structure the rates for home care services provided to eligible persons under the 2014 Order.

Article 1 introduces the amendments.

Article 2 amends Article 1 of the 2014 Order to provide new definitions of “appropriate level of standard care”, “level of standard care”, “standard care” and “standard care costs”. There are changes to other definitions to ensure the term “approved care home” is used consistently in the Order.

Articles 3, 4, 7, 8 and 9 amend Articles 4, 5, 10, 12A and 15 of the 2014 Order to ensure the term “approved care home” is used consistently in the Order.

Article 5 replaces Article 8 of the 2014 Order. The new Article 8 provides for the determination of the weekly rate of long-term care benefit under the Long-Term Care (Jersey) Law 2012. The weekly rate of benefit for a person receiving long-term care under an approved care package is the weekly costs of the approved care package, not exceeding the weekly costs of providing a person with the appropriate level of standard care in an approved care home. These costs are set out in table 1 in Article 8(7).

The weekly costs of an approved care package are worked out by reference to the standard rates for home care services and other services set out in table 2 in Article 8(8), plus any costs included in the approved care package for additional services or equipment.

Article 6 replaces Article 9 of the 2014 Order. The new Article 9 sets out the conditions for receiving long-term care benefit.

Article 10 provides for citation and commencement.

The Order was made on 16th April 2026 and came into force on 23rd April 2026.

R&O.73/2026.

Tourism (General Provisions) (Jersey) Amendment Order 2026.

Minister for Sustainable Economic Development.

The Tourism (General Provisions) (Jersey) Amendment Order 2026 amends the Tourism (General Provisions) (Jersey) Order 1990 (the “Order”) to remove certain regulatory requirements for the different classifications of premises, and to align the requirements for management of the premises by a competent person contactable by resident guests.

Article 1 introduces the amendments to the Order.

Article 2 amends Article 1 (interpretation) to define “competent person” and “suitable toilet facility”, which replaces outdated references to “water closet” in the Order.

Article 3 amends Article 2 (classification of premises) to amend references to “youth hostel”, as these will become “hostels” for use by people of any age. Consequential amendments are made by *Articles 9 and 13* to Article 12 (registration of youth hostels) and Schedule 1 (fees for registration or renewal of registration).

Article 4 amends Article 4 (requirements for registration as hotel). There will no longer be a requirement for the registered hotel premises to be part of a single building or a series of internally linked buildings, instead they must be close to each other. Meals and refreshments will no longer need to be provided at customary times to allow flexibility. The requirement for provision of accommodation for at least 16 bedrooms is removed, which will allow smaller properties to be registered either as a hotel or guest house (noting that Article 19 of the Order does not require the registration of premises providing lodging for up to 5 people). There is a new requirement that if resident guests are accommodated in a building in close proximity to the main building (an “annex”), without private facilities, there must be at least 1 bathroom in the annex. There will no longer be a requirement for a hotel to provide a sitting room or dining room for residents, and no specific requirements for kitchen facilities or for chambermaids’ pantries on floors where

bedrooms are located. Privacy coverings will be required if bedroom windows are overlooked, replacing a mandate for net curtains. The requirement to provide a public telephone for guests is changed so that a telephone must be available on the premises that enables, at all times, contact with the emergency services and with a competent person or their delegate. The requirement for a responsible person (now the competent person or their delegate) to be always available on the premises is retained along with a requirement for the premises to be under the management of a competent person contactable by resident guests, with details of how the manager may be contacted at night clearly posted in the reception area of the premises and in every bedroom.

Article 5 makes similar modifications to Article 6 (requirements for registration as guest house) in relation to guest houses, which may have a maximum of 24 bedrooms (not including self-catering accommodation). In particular, the requirement for a responsible person (now changed to the competent person or their delegate) to be in attendance when resident guests arrive and depart is removed.

Article 6 amends Article 8 (requirements for registration as self-catering accommodation) to remove the requirements for telephones to be provided for residents and for brochures with charges to be made available on request. Details of how the manager may be contacted at night must be clearly posted in a prominent place or made readily available to resident guests.

Article 7 amends Article 10 (self-catering accommodation forming part of other premises) to allow the self-catering accommodation offered by a hotel, guest house or holiday camp to be close to the registered premises, not just part of or in the grounds attached to the premises.

Article 8 deletes Article 11 (self-catering accommodation in use on appointed day) which was a transitional provision and is spent.

Article 10 amends Article 13 (requirements for registration as youth hostel) to allow hostels to be used by people of all ages, and to update the wording for the requirement for separate sleeping accommodation, bathrooms and toilets for different sexes. There is also added a requirement that a person making a booking must be informed at the time of booking whether the sleeping accommodation being reserved is for the sole use of guests who are part of that booking, or if shared with other guests, whether it could include persons of any sex. The premises must be under the management of a competent person and they or their delegate must reside on the premises when open and must be contactable by resident guests. Details of how they may be contacted at night must be clearly posted in a prominent place or made readily available to resident guests.

Article 11 amends Article 15 (requirements for registration as holiday camp) to require the premises to be under the management of a competent person who can be contacted at all times by resident guests, with details of how the manager may be contacted at night clearly posted in a prominent place or made readily available to resident guests.

Article 12 amends Article 17 (requirements for registration as a camp site) to remove the restriction on sleeping only in tents or similar structures, and to make provision for vehicular access to, and adequate space between, accommodation units (defined to include caravans, tents or similar structures). The premises must be under the management of a competent person who can be contacted at all times by resident guests, with details of how the manager may be contacted at night clearly posted in a prominent place or made readily available to resident guests.

Article 14 provides for the title of the Order and for commencement.

The Order was made on 16th April 2026 and came into force on 23rd April 2026.

Article 4 explains the meaning of “turnover” for the purposes of *Article 3*.

Note regarding the appointment processes

(See Item F)

Selection of the Minister for Planning and Regulation

The Presiding Officer will invite the Chief Minister to make his nomination for the position of Minister for Planning and Regulation. The Presiding Officer will then invite members to nominate alternative candidates. If there are no alternative nominations, the member nominated by the Chief Minister will speak for up to 10 minutes followed by a 20-minute question period; after which the member nominated by the Chief Minister will be selected for appointment.

If more than one member is nominated, the Presiding Officer will invite each candidate to speak for up to 10 minutes followed by a 20-minute question period. The candidates will speak in the order in which they are nominated, meaning that the Chief Minister's nomination will speak first. During the speeches and question period other candidates must withdraw from the Chamber to a place where they cannot hear the proceedings. After the candidates have spoken and been questioned, a recorded vote will be held. Once a candidate has obtained a majority of the votes cast in the recorded vote, he or she will be appointed to the position of Minister for Planning and Regulation. Abstentions do not count as 'votes cast'.

President of the Scrutiny Liaison Committee

Standing Order 121(1) provides that the President of the Scrutiny Liaison Committee shall be appointed from amongst the persons who are members of the Committee.

The Presiding Officer will invite nominations for the position. Only the 6 Chairs (the Chairs of the Public Accounts Committee and the 5 Scrutiny Panels) are eligible for nomination. If there is only one nomination, the member nominated will speak for up to 10 minutes followed by a 20-minute question period; after which the member will be selected for appointment. If there is more than one nomination, the presiding officer shall then draw lots to determine the order in which they shall be invited to speak. Each candidate will speak for up to 10 minutes with a 20-minute question period. Other candidates must withdraw from the Chamber during the speeches and question period.

Following the speeches and question periods, a recorded vote will be held until one candidate receives an overall majority of the votes cast. The electronic voting system will be used in any instance where there are two candidates; an open ballot will take place in instances where there are more than two candidates.

Members of the Privileges and Procedures Committee

Standing Order 122 provides that the Chair of the Privileges and Procedures Committee shall nominate 3 elected members who are neither Ministers nor Assistant Ministers as members of the Committee. The Chair, after consultation with the Chief Minister, will also nominate 2 elected members who are each a Minister or an Assistant Minister as members; and she will also nominate one member of the Scrutiny Liaison Committee.

After the Chair has made the nominations the Presiding Officer will invite alternative nominations within each of these 3 categories. Only members who meet the relevant criteria are eligible for membership in each category. If alternative nominations are made there will be a secret ballot for membership of the category concerned. In the ballot(s), members have the same number of votes as the number of places to be filled but do not have to use all their votes. The candidate(s) with the largest numbers of votes on any occasion will be elected.

Elected members of the Public Accounts Committee

Standing Order 123(1) provides that the Chair of the Public Accounts Committee shall indicate the number of elected members (being not less than 2) that he or she wishes to have as members of the Committee and should then nominate that number of elected members (who are neither Ministers nor Assistant Ministers) as candidates for appointment. Standing Order 131(1)(b) provides that there must be an even number of members (but not less than 4) and half must be persons who are not members of the States. Only the elected members will be nominated at this meeting.

After the Chair has made her nominations the Presiding Officer will invite alternative nominations. If alternative nominations are made, a secret ballot will be held.

Members of the 5 Scrutiny Panels

Standing Order 125(1) provides that each Scrutiny Panel shall consist of a number of members (in addition to the Chair) determined by the Chair of the Panel, but not more than 5, who must be elected members who are not Ministers or Assistant Ministers. There is no limit on the number of Scrutiny Panels of which an elected member may be a member.

After announcing the number of members that he or she wants, the Chair of each Panel (in the order shown in the Order Paper) will make his or her nominations. The Presiding Officer will invite alternative nominations and, if alternative nominations are made, a secret ballot will be held.

Members of the Planning Committee

Standing Order 125A(1) provides that the Planning Committee shall consist of a number of members (in addition to the Chair) determined by the Chair of the Committee, but not less than 3 and not more than 9. Standing Order 141A provides that the following cannot be members of the Committee: Ministers and any Assistant Minister for the Environment discharging the Ministerial functions relating to planning under the Planning and Building (Jersey) Law 2002.

After announcing the number of members that he wants, the Chair of the Committee will make his nominations. The Presiding Officer will invite alternative nominations and, if alternative nominations are made, a secret ballot will be held.

2 States Commissioners of the Jersey Overseas Aid Commission

The constitution of the Jersey Overseas Aid Commission (set out in Schedule 1 to the Jersey Overseas Aid Commission (Jersey) Law 2005) requires that the Chair recommend elected members for appointment as States commissioners. Standing Order 126 provides that the Chair will make her 2 nominations, and the States shall vote on each proposal separately. Members cannot make alternative nominations. If the States reject a proposal by the Chair, the Chair must propose another elected member for appointment. Election as a States Commissioner is open to all members.

2 members of the States Employment Board

The States Employment Board is chaired by the Chief Minister, or by another Minister who is nominated by the Chief Minister to be Chair in their place, and (in accordance with the Employment of States of Jersey Employees (Jersey) Law 2005) consists of 2 Ministers or Assistant Ministers appointed by the Chief Minister and 2 States members who are not Ministers or Assistant Ministers appointed by the States. The Chair will nominate 2 members who are not Ministers or Assistant Ministers for these 2 latter positions. The Presiding Officer will invite alternative nominations and, if alternative nominations are made, a secret ballot will be held.

Members and Associate Members of the British-Irish Parliamentary Assembly

Nominations will be invited from the floor at the meeting for the position of Member and each nomination will need to be seconded (in accordance with Standing Order 102). If there is more than one nomination, a secret ballot will be held. If no candidate receives a majority of votes cast in the ballot the candidate with the lowest number of votes will withdraw from the contest and a further secret ballot will be held. This process will be repeated as necessary until one candidate receives a majority of votes cast.

Nominations will then be invited from the floor for the position of Associate Member. The selection process will be identical to the process set out above.

Jersey was invited to join the British-Irish Inter-Parliamentary Body (as BIPA was known until 2008) in 2000 although Jersey's initial involvement was limited. The history of the Body is available on its website (www.britishirish.org).

The running of the Body and the control of its business is in the hands of a Steering Committee consisting of 3 Members from Dublin, 3 from Westminster, and 3 from among the other participating institutions, led by the 2 Co-Chairs, one from Westminster and one from Dublin. The 3 Crown Dependencies have one place on the Committee between them and this is filled on an annual rotation basis. Jersey is currently filling the Crown Dependency place on the Committee in 2026.

The Body is funded by grant-in-aid from the Treasury in London and the Department of Finance in Dublin. The day-to-day administration is carried out by 2 Clerks, one from Dublin and one from Westminster, with assistance from several of their colleagues from both jurisdictions.

There are normally 2 Plenary sessions every year, of a day and a half or 2 days each, which provide a forum for the mutual exchange of views between parliamentarians. Each Plenary has a Question Time at which a Minister from the host country answers Questions (of which notice is given in the Programme of Business). Apart from the Ministerial Statement and Questions, the main business is always a debate on a motion on Recent Political Developments.

The primary function of Plenary Sessions is to provide a forum for debate and the exchange of views, while the day-to-day work of the Body is carried out through its 4 Committees: Committee A deals with Sovereign (i.e. East-West) Matters, Committee B covers European Affairs, Committee C is concerned with Economic Affairs, and Committee D with Environmental and Social Affairs. Each Committee has a Chair from one delegation and a Shadow Chair from the other, so that the British and the Irish each have 2 full Chairs. They are supported by 4 Clerks from Westminster and, from the Irish side, 2 officers from the Department of Foreign Affairs. The Steering Committee assigns each full Member of the Body and each Associate to one of the 4 Committees, normally by agreement with the person concerned, and with an eye both to party-political balance and equality of representation from the delegations.

The total membership of the Body at present is –

- 25 members of the Oireachtas (plus up to 20 Associate members);
- 25 members of the UK Parliament (including peers) (plus up to 20 Associate members);
- 5 members of the National Assembly for Wales (plus up to 4 Associate members);
- 5 members of the Northern Ireland Assembly (plus up to 4 Associate members);
- 5 members of the Scottish Parliament (plus up to 4 Associate members);
- one member of Tynwald (plus one Associate member);
- one member of the States of Jersey (plus one Associate member); and
- one member of the States of Guernsey (plus one Associate member).

The Associate Member is invited to attend meetings of BIPA if the Member is unavailable.

Bailiff's Consultative Panel: Appointment of members

On 7th July 1992 the States, adopting a proposition of former Senator R.J. Shenton, *“agreed to establish a Consultative Panel of elected members of the States with whom the Bailiff would be able to meet in order to consult on a confidential basis in appropriate cases”*.

The composition of the Panel has been amended on a number of occasions since 1992 to reflect changes to the machinery of government and the current composition, agreed on 16th May 2006, is as follows –

- the Chief Minister;
- the Minister for Treasury and Resources;
- the Chair of the Privileges and Procedures Committee;
- the Chair of the Comité des Connétables; and
- five other members elected by ballot by the States for a period of 4 years.

The term of office for the five members elected by ballot runs in accordance with the electoral cycle, with the appointments to take place after each election.

Although the Panel does not meet frequently it nevertheless enables the Bailiff to discuss various matters with elected members. For example, matters discussed by the Panel in the past few years have included the plans for Liberation Day and Royal visits, the arrangements for the departure of His Excellency the Lieutenant Governor and the arrival of his successor, the appointment of Crown Officers and the appropriate way to mark the retirement of the Bailiff.

In accordance with the precedent of previous appointments, nominations will be invited from the floor and each nomination will need to be seconded. If there are more than 5 nominations made a secret ballot will be held and the 5 members receiving the largest numbers of votes will be elected as members of the Panel. In any ballot each member would be able to cast up to 5 votes.
