### **Comments**

The Human Resources Committee notes the additional manpower requirements which have been identified in the Agriculture and Fisheries Committee Policy Report 2001. It also notes that there is a lack of detail in the Policy report as to how the new initiatives will operate, and how many staff will be required. Subject to the approval of the proposition, any additional staffing requirements would only be considered in light of the States policy on manpower and would not normally be approved unless compensatory manpower savings are implemented.
