WRITTEN QUESTIONS

(See Item I(a))

1. The Chief Minister will table an answer to the following question asked by the Connétable of St. Mary –

“Further to the Council of Ministers’ comments published in relation to the proposition of Deputy Southern P.37/2013 ‘Living Wage for Jersey: investigation’, will the Chief Minister advise the Assembly on the outcome of the “refreshing the existing Social Policy Strategic Framework” referred to in those comments and advise when he expects the Assembly to be in a position to consider knowledgeably the implementation of a living wage?”

2. The Minister for Planning and Environment will table an answer to the following question asked by Deputy J.H. Young of St. Brelade –

“Will the Minister provide a detailed list of the building works which were completed by or on behalf of the Energy Efficiency Service Home Energy Scheme and were funded or supported by financial grants provided from the Department’s budget during each year of the scheme’s operation, indicating –

- (i) the nature of the works,
- (ii) the cost,
- (ii) the amount of grant assistance
- (iv) the premises on which these works were carried out and whether the premises were owner occupied or tenanted?

3. The Minister for Home Affairs will table an answer to the following question asked by the Connétable of St. Martin –

“Will the Minister set out for members, for the period 1st January 2011 to 31st March 2014, details of:-

- (i) How many States of Jersey Police Officers have been dismissed from the Force;
- (ii) How many Civilian Support Officers working with the Police have been dismissed;
- (iii) How many of each group have formally appealed their dismissal;
- (iv) To whom those appeals were made (for example the Royal Court, Jurats Appeal, the Jersey Complaints Board or any other relevant agency);
- (v) How many have had their dismissal overturned at appeal level;
- (vi) How many remain dismissed but are awaiting their appeal to be heard;
- (vii) How many of those Police Officers or Civilian members of staff whose appeals have been successful have subsequently returned to work with the Police;
- (viii) How many remain in active negotiation with the Minister or Chief Officer regarding their re-instatement after successfully appealing their dismissal and,
- (ix) The total cost to date to the Home Affairs Department/States of Jersey Police budget in defending the appeals identified above?”

4. The Minister for Social Security will table an answer to the following question asked by Deputy G.P. Southern of St. Helier –

“Further to his response to a written question (8234) on 1st April 2014, will the Minister state –

- (a) what proportion of the totals incorrectly claimed under the new regime in the years 2011 to 2013 were the result of actual fraud cases referred for prosecution?
- (b) what proportion required action through the Petty Debts Court for recovery?
- (c) the departmental estimate of the amount due to genuine error on the part of claimants?
- (d) what estimate he has for the sums incorrectly paid as a result of departmental error?

Will the Minister provide the figures for 2013 for under and overpayments of Income Support which result from claimants’ changes of circumstance when payments are made a month in advance?

Will he agree to carry out a benchmarking comparison between the 2013 figures for payments in error as a percentage of total benefit payments with the figures released by the UK Department for Work and Pensions in January 2014 for –

- (i) official error, due to inaction, delay or a mistaken assessment
- (ii) claimant error, when claimants make inadvertent mistakes with no fraudulent intent
- (iii) fraud, in which claimants deliberately seek to mislead?”

5. The Minister for Health and Social Services will table an answer to the following question asked by Deputy J.H. Young of St. Brelade –

“Would the Minister advise the Assembly whether the crematorium has mercury abatement equipment installed?

In operating the crematorium, does the Health and Social Services Department comply with the requirements of the Process Guidance Note 5/2 (12) “Statutory Guidance for Crematoria” (September 2012) issued in the UK by the Department for Environment Food and Rural Affairs under European Union Directives?

Are air borne emissions monitored for potential pollutants, including mercury compounds, dioxins and furans?

What plans, if any, are there for the future modification or replacement of the crematorium equipment to meet current environmental standards, what is the likely cost of this and has a funding stream been identified?”

6. The Minister for Economic Development will table an answer to the following question asked by Deputy J.M. Maçon of St. Saviour –

“Would the Minister explain why the preliminary Tourism Shadow Board report was not presented to the Assembly as a Report and whether he will request that the Board’s processes are amended so that any further reports are formally presented by the Minister on behalf of the Board and, if not, why not?”

7. The Minister for Economic Development will table an answer to the following question asked by Deputy G.C.L. Baudains of St. Clement –

“Could the Minister confirm whether the prime reason for granting £200,000 to Canbedone productions was for adjustments to the film so that at least part of it could be filmed in Jersey?

Would the Minister advise how many proposed filming dates have now passed and, in light of the recent admission by the film’s director, would the Minister agree that it now seems unlikely the film will ever be made?

Furthermore, in light of the foregoing and also the changes of company and film title, will the Minister state whether, and at which point, he will activate the contract’s claw-back clause?

Would the Minister advise how much officer time and resources have been dedicated to this matter and whether his department intends spending any more time and resources on the project in the future?”

8. The Minister for Housing will table an answer to the following question asked by Deputy G.C.L. Baudains of St. Clement –

“With regard to the redevelopment of Le Squez, could the Minister advise of the density (persons per acre) and area of amenity space before development began, together with figures that will apply once the latest plans have been completed?”

9. H.M. Attorney General will table an answer to the following question asked by Deputy R.G. Le Hérisser of St. Saviour –

“Could H.M. Attorney General outline the circumstances in which confidential medical records are made available to defence lawyers in criminal trials and the circumstances in which they can be revealed in Court and is he satisfied that appropriate safeguards are in place to protect victims in these instances?”

10. The Minister for Treasury and Resources will table an answer to the following question asked by Deputy R.G. Le Hérisser of St. Saviour –

“Could the Minister identify the running costs of the Corporate Procurement section in each of the last three years and identify the promised savings and actual savings made in each of those years?”

11. The Minister for Economic Development will table an answer to the following question asked by Deputy S.S.P.A. Power of St. Brelade –

“Would the Minister confirm that the proposed rent for the Elizabeth Harbour Cafe is approximately £50,000 per annum and that this is combined with a full repairing and maintaining lease and all the fit-out costs and, if so, does he consider that this could preclude many interested parties from expressing interest?

Would he agree that a high rental for the cafe concession at the harbour will simply ensure a longer void period and the risk of letting to a restaurant operator who will have to seek high prices to cover costs?

What market research, if any, has been undertaken to establish the price range and menu options which would be appropriate for customers waiting for a ferry from Jersey?”

12. The Minister for Planning and Environment will table an answer to the following question asked by Deputy S.S.P.A. Power of St. Brelade –

“Given the success of the aquaculture industry locally is the result of hard work and big investment by local Jersey entrepreneurs in developing the oyster and mussel beds in the Royal Bay of Grouville, would the Minister advise whether he considers it acceptable for his department and the Economic Development Department to demand financial accounts to be submitted from these aquaculture companies or to consider threatening enforcement action against these operators if they refuse to submit financial information?”

Can the Minister explain why financial accounts are being demanded when the States have no financial interest or involvement by grant aid or subsidy to this successful local industry that is largely export based?

Can the Minister confirm if any enforcement action could risk closing the companies?”

13. The Chief Minister will table an answer to the following question asked by Deputy G.P. Southern of St. Helier –

“Does the Chief Minister consider that the potential expansion of the finance sector workforce by at least 900 additional posts over the next five years announced by the CEO of Jersey Finance is sustainable, given that growth at this level in a single sector of the economy would already exceed the modest targets set by the Council of Ministers in its interim population policy for the whole of the economy and, if so, why?”

Can the Chief Minister cite any evidence which would support the assertion made by the CEO that 80 per cent of these additional posts would be filled by those with 5-year entitlement to work?”

14. The Minister for Treasury and Resources will table an answer to the following question asked by Deputy G.P. Southern of St. Helier –

“Notwithstanding his previous answers on the use of structured loans by Jersey registered companies to subsidiaries in order to avoid legitimate UK corporation tax, exemplified by Henderson Infrastructure and Alder Hey PLC, what part of the new Financial Services Framework does he consider addresses the question of what constitutes ‘aggressive or abusive’ tax avoidance and, if none, why not?”

Despite the absence of a comprehensive action plan on base erosion and profit shifting, does he not accept that he could and should take responsibility for regulating the activities of Jersey registered companies in this area of financial activity and, if not, why not?”

Will he explain to members how his statement that "we are part of the growth solution of the UK government" matches the reduction in UK tax revenue produced by our activity and does he accept that his statement that "clearly our innovative company law is providing useful arrangements for UK companies" simply means we are involved in assisting companies to abusively avoid legitimate tax?”

15. The Chief Minister will table an answer to the following question asked by Deputy J.H. Young of St. Brelade –

“Will the Chief Minister provide a detailed report of the work of the Regeneration Steering group since his election, to include –

- (a) the number of meetings of the group and attendances by Ministers

- (b) the subjects discussed
- (c) the significant policy decisions made by the group, if any, detailing their outcomes and achievements
- (d) the directions given to the States of Jersey Development Company, if any, to carry out development of public property.

Has the group been monitoring the location and quantity of vacant office units in town?

Has the group identified any particular areas of town which require priority for regeneration?

Has it set a policy, including providing either financial incentives to owners or regulatory incentives via relaxation of building bye- laws, to encourage long standing vacant secondary and tertiary offices to be converted or redeveloped to residential uses securing additional dwelling units, and, if not, why not?"
