3rd January 2007

D. Frigot, Esq.,
The President,
Royal Jersey Agricultural and Horticultural Society,
Royal Jersey Showground,
La Route de la Trinité,
TRINITY, JE3 5JP.

When I wrote to you about the problems, which I think you will undoubtedly face if you import semen from outside the Island, I find that I failed to forward to you a paper sent by Mr. Mallinson, part of whose letter I enclose herewith together with the paper in question.

Whilst writing to you on this subject it is of course a matter of decision as to whether the problems I envisage can be overcome satisfactorily: what I do wish for though is that they should be considered with care and not be summarily discounted, this in the interest of all the breeders and indeed the Island as a whole.

With kind regards.

Yours ever,

P. R. Le Cras

Encs.
