Comments

The Establishment Committee fully supports the formation of the Industries Committee, which should improve the efficiency and effectiveness of the States' administration.

The Committee notes that there are expected manpower requirements which have been identified in the report and proposition regarding the formation of an Industries Committee. Subject to the approval of the proposition, the Committee will work in partnership with the Industry Organising Committee, and subsequently the Industries Committee, to ensure that the appropriate manpower is provided within States policy on manpower and the principles of the Regulation of Undertakings and Development Law.
