CHILDREN’S RIGHTS IMPACT ASSESSMENT (CRIA)

PART 1: SCREENING

Name and title of Duty Bearer:	Council of Ministers
Type of Duty Bearer: (Minister, Elected Member or States Assembly Body)	Minister
Assessment completed by (if not completed by duty bearer):	Ministerial Office
Date:	19/11/2024

<p>1) Name and brief description of the proposed decision The subject of your CRIA may be a proposed law, policy or proposition and in accordance with the Law is referred to in this template as the ‘decision’</p> <ul style="list-style-type: none"> • What is the problem or issue the decision is trying to address? • Do children experience this problem differently from adults?
<p>As identified in the CRIA supporting the original amendment, the completion and publication of a formal Play Strategy will allow children more space and opportunities to play than they currently have, and so they do experience this issue differently than adults.</p>
<p>2) Which groups of children and young people are likely to be affected? Groups of children could include early years, primary or secondary education; young adults; children with additional learning needs; disabled children; children living in poverty; children from particular ethnic backgrounds; migrants; refugees; care experienced children and LGBTQ+ children</p>
<p>As stated in the CRIA supporting the original amendment, all children and young people.</p>
<p>3) What is the likely impact of the proposed decision on children and on their rights?</p> <ul style="list-style-type: none"> • Identify any potential positive OR negative impacts and include indirect impacts on children and their rights as described in the UNCRC • Will different groups of children be affected differently by this decision?
<p>The development of a Play Strategy will improve the space and opportunities available for play whilst also improving access to established facilities and activities.</p>
<p>4) Is a full Children’s Rights Impact Assessment required? If you have identified impacts on children and their rights, a full CRIA should be completed. If no impacts are identified then a Full CRIA is not required, but please explain your rationale and how you reached this conclusion</p>
<p>No, a full CRIA has not been completed by the original proposer and this Amendment to the Amendment would have the same impact and so a full CRIA would be superfluous.</p>
