Dear Deputy Jeune,

Thank you for your letter dated 4 March 2024 regarding updating the panel about Ministerial Priorities prior to the briefing on 27 March 2024.

Please find below a number of priorities that have been identified:

1. Address under-investment in government-owned property; tackle the widening gap in the condition of the estate and the maintenance funding – need a sustainable funding model; look for solution for Fort Regent
2. Promote access to town via strategies for walking, cycling, bus travel, promoting specific projects, and seeking opportunities for greater accessibility to parking spaces for Islanders and tourists alike
3. Promote the hopper bus in particular and bus use in general, particularly a circular bus route across the northern parishes (noting the presence of the Enid Quenault Centre at Les Quennevais)
4. Pursue liquid waste projects to support the delivery of new housing across the Island and ensure sufficient capacity for the longer term
5. Examine use of the school sports estate for wider community use and examine possibility of a central booking system combining Infrastructure-run sports facilities with school facilities

6. Continue developing the Markets and Lido at Havre de Pas, working with the Constable of St Helier who is now the Assistant Minister for Infrastructure
7. Look to host the Island Games in 2031 or 2033
8. Move forward with plans for satellite skate parks in town/east of the Island.

I hope the above is helpful and look forward to meeting with you all at the briefing.

Yours sincerely,
