

Written Submission 2.1**Mrs Le Main**

Regarding the 2014 Budget.

I emailed Mr Ozouf twice but did not get a reply from him. I think that tax breaks for people that take out private health insurance should be considered. I am a pensioner and pay for private insurance (which is very expensive when you get to 60) to help our hospital that cannot cope with the amount of people here now. We used to get tax breaks for having private insurance but not now. I am thinking of cancelling my policy as there is no tax incentive to keep it. I am Jersey born.

Regards Mrs Le Main
