Arrangement of public business for the present meeting

THE STATES, adopting a proposition of the Minister for the Environment, agreed that the amendment of Senator Samuel Yves Mézec (P.36/2021 Amd.(25)) to the proposition of the Minister entitled ‘Island Plan 2022-25: Approval’ (P.36/2021) would be considered prior to the amendment of Senator Samuel Yves Mézec (P.36/2021 Amd.(41)) to the same proposition.

Island Plan 2022-25: Approval P.36/2021

THE STATES, resuming consideration of a proposition of the Minister for the Environment entitled ‘Island Plan 2022-25: Approval’ (P.36/2021), as amended, commenced consideration of an amendment of Senator Samuel Yves Mézec (P.36/2021 Amd.(25)) and, adopting an amendment of the Minister for the Environment (P.36/2021 Amd.(25)Amd.), agreed that –

in paragraph (a), the proposed Policy HX – Future Affordable Housing Provision should be replaced with the following new Policy –

“Policy HX – making more homes affordable

Development proposals involving the creation of 50 or more new dwellings will only be supported where at least 15% of the development is made available for sale or occupation by islanders eligible for assisted purchase housing.

Access and eligibility criteria for such homes will be established and maintained by the Minister for Housing and Communities.

Schemes that are just below the threshold level must demonstrate that the proposals do not represent an under-occupation of the site, having regard to development density levels considered appropriate for the area, or, that a large site is not being brought forward in phases in order to avoid meeting this policy requirement. In any such proven cases, development proposals may be refused, or planning obligation agreements used to ensure that a phased development will make a proportionate contribution.

The proportion of assisted purchase homes shall be provided on the site for which permission is sought, unless one or more of the following circumstances apply:

1. that the provision of the housing product(s) specified by the Minister for Housing and Communities on the site would make that development unviable, and in such cases, the applicant has demonstrated that an appropriate alternative form of discount or financial assistance will be provided as far as possible;
2. that the site is of such a size or nature that the contribution to assisted purchase housing would be maximised in the form of a commuted payment, to support the delivery and/or

- procurement of assisted purchase housing products elsewhere. A commuted payment will not be accepted where it is intended to cross-subsidise homes already subject to an affordable, first-time buyer or other assisted purchase requirement, but may be used to increase the supply of assisted purchase homes on another open market site;
3. where assisted purchase housing is best provided through the mechanism of a site-swap using sites within the ownership and control of the applicant, which will be secured using a planning obligation agreement.

This policy will be in effect from January 2023, following the development and publication appropriate assisted purchase products and eligibility criteria, as relevant to the application of this policy.

The Minister for the Environment, in consultation with the Minister for Housing and Communities, will periodically review the parameters which apply to the operation of this policy and, should a need for change be identified, will issue further supplementary planning guidance to revise one or more of the following:

- the threshold size of developments to which the policy will apply;
- the proportion of homes to which the policy applies;
- the type and value of first-time housing products which might be applicable;
- the means by which the contribution can be made, including the level of commuted sum tariff;
- the housing gateway band(s) from which the homes are to be allocated.”; and

in paragraph (b), the words “, 1st January 2023” should be replaced with –

“January 2023.

The Minister will also further assess the viability of decreasing the threshold to which this policy applies and/or increasing the proportion of contribution that is to be made. Such work will be undertaken in consultation with key stakeholders, with a view to increase the policy requirement in the subsequent Island Plan (2026-2035). The overall impact on housing supply and viability will be assessed having regard to the need for restrictions to be put in place to ensure that contributions to the proposed Sustainable Communities Fund are viable, proportionate and appropriate in light of the provision of affordable and other types of first-time buyer and assisted purchase homes.”

THE STATES, adopting the amendment of Senator Samuel Yves Mézec, as amended, agreed that, after the words “the draft Island Plan 2022-25”, there should be inserted the words “except that –

- (a) before ‘Proposal 22 – Future affordable housing provision’ there should be inserted the following new Policy –

“Policy HX – making more homes affordable

- (b) ‘Proposal 22 – Future affordable housing provision’ should be deleted and replaced with the following Proposal –

“Proposal – Affordable housing

The Minister for the Environment will develop and issue supplementary planning guidance for the operation of this policy in order that it might take effect from, 1st January 2023.
