SIZE LIMITS) (AMENDMENT No. 6)
(JERSEY) REGULATIONS 201-
(P.93/2018) AND DRAFT SEA FISHERIES
(LES ECRÉHOUS) (JERSEY)
REGULATIONS 201- (P.94/2018):
COMMENTS**

**Presented to the States on 31st August 2018
by the Privileges and Procedures Committee**

STATES GREFFE

COMMENTS

The Privileges and Procedures Committee wishes to draw attention to the fact that, the Draft Sea Fisheries (Minimum Size Limits) (Amendment No. 6) (Jersey) Regulations 201- ([P.93/2018](#)), and the Draft Sea Fisheries (Les Ecréhous) (Jersey) Regulations 201- ([P.94/2018](#)) both reference, within their accompanying reports, that the amendments being made are following consideration of “scientific evidence and discussions in the various Committees of the Granville Bay Agreement”, yet fail to include any such evidence as an Appendix for Members’ information and consideration.

When considering all propositions, but especially draft legislation, Members should expect to be provided with sufficient information to determine their position. The Committee, unfortunately, feels the need to highlight that this information was not included in this instance, and hopes that in future any such references will be substantiated.
