MINISTER FOR ECONOMIC DEVELOPMENT

REPORT

Overview

The Minister for Economic Development lodged the Draft Aircraft Registration (Births, Deaths and Missing Persons) (Jersey) Regulations 201- (P.63/2015) (the "draft Regulations"). Subsequently, the Acting Viscount, who is also the Chief Coroner for the Government of Jersey, raised a number of points with regard to the draft Regulations that require amendments.

Proposed Amendments

Medical Certificate in the case of a death

It has been brought to the attention of the Economic Development Department that not all jurisdictions provide a medical certificate of the fact and cause of death. It has also been noted that the document providing the requisite information may not be called a '*medical certificate*' and hence amendments are required in the draft Regulations to rectify this.

Article 1(1)(b) states:

> *"in the case of a death, a medical certificate of the fact and cause of death in the form approved by the Superintendent Registrar"*

To remedy this issue the following words will be added to the Article *"... certificate [or equivalent (if any) giving] the fact ...."*

Further Article 1(2)(b)(ii) states:

> *"in the case of a death, the medical certificate mentioned in paragraph (1)(b).*

And this will be further rectified by:

> "…certificate [or equivalent (if any)] mentioned …"

Financial and manpower implications

There are no further manpower or financial resource implications by introducing this amendment.
