Pathway 2050: An Energy Plan for Jersey</b></p> <p>The Panel considered late changes required to its report as a result of further contact from the Transport and Technical Services Department in response to the stakeholder draft, despite this having previously been approved by the department. Members agreed the amendments subject to final confirmation from the department. The Scrutiny Officer was asked to adjust the report accordingly and arrange for its presentation to the States as soon as possible. Radon</b></p> <p>Further to Panel requests at the meeting on 29th October 2013 the Panel was informed that the advisers had offered to extend their contract completion date to take account of public hearings to be arranged early in 2014. It was noted that the advisers had other commitments in January 2014 but would try to accommodate review hearings with Ministers once dates were confirmed.
