Agenda matter	Action
<p>1. Declarations and Conflicts of Interest</p> <p>The Panel discussed and noted potential conflicts of interest.</p> <p>The Chair expressed an ongoing concern regarding the recent work Deputy Bailhache had undertaken for the Minister for Health and Social Services. The Chair requested that Deputy Bailhache provide a list of the individuals he had consulted with during the process to either the Panel or the Chair and Officers with the aim of ensuring transparency and preventing any conflicts of interests arising at future briefings, meetings or Hearings.</p> <p>Deputy Bailhache confirmed that he would disclose a potential conflict of interest, should he believe there was one, as and when such a situation might arise. Deputy Bailhache added that he had disclosed his work with the Health Minister to the Panel at the start of his membership and had not failed to disclose necessary information regarding the work to date. Deputy Bailhache added that the term conflict of interest required a clear definition and better understanding in such circumstances as those being discussed.</p> <p>It was agreed that the Deputy had disclosed to the Panel that he was undertaking work for the Minister from the beginning, however, it was considered by some members that the subsequent disclosure of further details would have provided more appropriate levels of transparency to Panel colleagues in the circumstances. The Chair informed the Panel that the Scrutiny Liaison Committee had written to the Privileges and Procedures Committee asking for clarification on the Troy Rule and whether or not the current circumstances might constitute a breach, in order to garner clarity.</p> <p>The Chair welcomed the openness of the Panel in discussing this matter and recorded her ongoing expectation that the Panel would work in an open and transparent manner, and wherever appropriate exceeding, the principles and requirements in this respect as set out in the Scrutiny Codes of Practice. This in turn would help the Panel to work together with trust and confidence as an effective team.</p>	

<p>2. Records of Meetings</p> <p>The Panel noted and approved the record of meeting held on 18th June 2024.</p>	
<p>3. <p>6. Public Hearing with the Minister for Health and Social Services</p> <p>The Panel reflected on its previous Quarterly Hearing that was held with the Minister for Health and Social Services on 6th June 2024.</p> <p>The Panel noted that the frequent change of Government Officers moving onto the table and back was distracting, noting that it might better manage an appropriate balance between Ministerial answers and additional Government Officer input. The Panel welcomed positive outcomes of the Public Hearing, such as the ability to raise concerns directly with the Minister and the subsequent evidence of actions that had been taken and change that had been affected as a result of the discussions.</p>

<p>4. <p>5. Letter from the Minister for Social Security</p> <p>The Panel noted and discussed a letter from the Minister for Social Security in relation to the previous Panel's Review into Income Support overpayments. The current Minister had reviewed the previous Minister's responses to the Panel's recommendations and had provided updates to the actions she intended to take as follows:</p> <ul style="list-style-type: none"> • Changes relating to the processing of overpayments, which were anticipated to reduce the volume of overpayments by up to 50%. These changes were anticipated to be in place by September 2024 at the latest. • Further changes regarding interdependent relationships. Legislative drafting would be progressed which would remove the reference to "conjugal" in the existing legislation and replace the term "interdependent relationship" with the term "partnership". These changes would be made by Ministerial Order, alongside changes to the Income Support section on the Government of Jersey website (www.gov.je), which would also provide clear guidance on the definition of a partner. <p>The Panel identified a number of questions regarding the Minister's response and agreed to request further detail from the Minister. <p>7. Any Other Business</p> <p>Deputy Renouf raised concerns relating to the funding of Public Health, particularly that as Public Health fell under the Cabinet Office directorate and that as this budget was being squeezed, funding for Public Health would also be too. It was suggested that this might be a future line of inquiry for the Panel.</p> <p>Deputy Stephenson raised that Jersey's Renal Service was developing a service for Jersey that was intended to be more resilient and sustainable than relying on a single-handed consultant and that this work was expected to be concluded in the next few weeks. It was agreed that once this had happened the Panel should request an update. 4. Briefing: Draft Social Security Law (Parental Allowance and Death Grant) (Jersey) Amendment Regulations 202- [P.66/2024]

The Panel received Matthew Viney, Principal Policy Officer and Katerina Stylla, Apprentice Policy Officer regarding the Draft Social Security Law (Parental Allowance and Death Grant) (Jersey) Amendment Regulations 202- [P.66/2024].

The Panel was informed that changes were being proposed to the parental allowance and death grant. Officers proceeded to provide context regarding both schemes, informing the Panel that the parental allowance ('the allowance') was a weekly contributory benefit which provides financial support to parents to allow them to take time off work to care for their new baby. The allowance's eligibility was based on social security contributions and new parents were able to take up to 32 weeks with the current rate at £283.01 per week.

It was explained that the death grant was a one-off contributory benefit of £1,132.04 which was paid when someone died. The Panel heard that the payment typically was paid to funeral directors. Officers further explained that eligibility for children who were under 16 was based on their mother or father's record. Officers added that the current grant could not be provided in respect of stillbirths.

The Panel was informed that the proposed changes followed the adoption of P.52/2023 by Deputy Kovacs to require the Minister for Social Security to provide support for parents who have babies born pre-term and/or requiring neonatal care. Officers explained that the proposed changes would:

- Provide up to 4 weeks of additional parental allowance to parents whose baby requires urgent hospital care within the first 28 days of the baby's life ("neonatal care").
- Provide up to 12 weeks of additional parental allowance to parents whose baby was born prematurely and requires urgent hospital care.
- Enable parents who were awarded extra weeks to take their parental allowance in four blocks rather than three. This would provide parents with more flexibility when deciding how to split and allocate their weeks of allowance.

The Panel enquired about the way in which additional weeks would be provided and calculated. Officers explained that the Customer and Local Services Department ('CLS') would work closely with the hospital and families regarding the arrangements and each case would be bespoke to the individual needs and circumstances.

The Panel was informed of the proposed changes to the death grant which:

- Introduced the definition of "stillborn child".
- Extended the eligibility for a death grant to include parents who had suffered a stillbirth to receive the benefit.
- Made a minor change in respect of civil partners so that the rights to a death grant were the same as for married partners.

Officers informed the Panel that the States Assembly debate on the proposed changes would take place on 12th November 2024. Officers added that the Minister for Social Security intended to take the Regulations in groups rather than 'en bloc' to allow Members to vote on each proposed change separately. The groups were expected to be as follows:

<ul style="list-style-type: none"> • Reg – 1, 2, 3, 11 and 12 – housekeeping and commencement • Reg – 4, 5, 6, 7, 8 and 10 – parental allowance changes • Reg – 9 – death grant changes <p>Upon adoption, the Minister for Social Security would sign an Order commencing the legislation prior to the end of 2024. Officers added that the estimated additional cost was around £300,000 per year for the changes to parental allowance and less than £5,000 per year for the changes to the death grant and that the additional spend had been factored into existing departmental benefit budgets. Officers did note that it was expected for the costs to be much less than the estimates due to low volumes of cases, that no additional resources were required and there would be no policy impact, only structural changes to the legislation. The Panel asked where the money would be funded from and if a growth bid was required. Officers explained that the funding would be taken from the Social Security Fund, the estimated expenses had already been factored into future plans and no growth bid was required.</p> <p>The briefing concluded and the Panel thanked the Officers for their time.</p> <p>The Panel confirmed a comments paper would not be required and would state that it had received a briefing when the proposition was due to be debated on 12th November 2024.</p>	
<p>5. Briefing: Family Nursing and Home Care (FNHC)</p> <p>Officers requested clarification following a recent request for a briefing from FNHC, as to which service areas would be of interest to the Panel. The Panel requested that FNHC be updated that a briefing would not be required at this time but would be in the future, especially in relation to the proposed healthcare system restructure.</p>	<p>JF</p>
<p>6. Any Other Business</p> <p>The Panel discussed a letter from the Minister for Social Security received on 28th October, and specifically the sections relating to the proposed use of the Social Security (Reserve) Fund for the acquisition of the Government Headquarters building. The Panel agreed to request further clarification from the Minister as to what specialist independent advice had been sought to support the use of the Fund for this purpose, in addition to the advice provided by the Treasury Advisory Panel.</p>	<p>NH</p>
<p>7. Future Meeting</p> <p>The Panel noted that its next scheduled meeting would take place at 12pm on 5th November in the Le Capelain Room.</p>
