3rd July 2024

Dear Minister,

**Road Safety Review and
2023 Road Traffic Collision and Casualty Update**

The Environment, Housing and Infrastructure Panel has noted the responses that you have provided in the States Assembly in relation to road safety and particularly the assurance that a Strategic Safety Unit (as prioritised in the Sustainable Transport Policy Next Steps Delivery Plan¹) has been established with the aim of publishing a 'collision and casualty reduction plan later this year enabling delivery of the safe system approach, identifying specific actions to help prevent collisions and reduce injury severity'.²

The Panel would be grateful if you could provide the following information.

1. Please could you outline how the Safe System Approach to Road Safety³ will be embedded in the Future Steps outlined in the Road Traffic Collision and Casualty Update⁴ and in projects which are already planned, such as those in St Saviour, Bagatelle, Castle Street, Route de la Libération, La Blinerie and the Western Gateway⁵.
2. What specific action will be taken to reduce fatalities on Jersey roads.
3. How the Future Steps and forthcoming initiatives will be aligned with the delivery of the Sustainable Transport Policy Next Steps.
4. What work will be done to promote shared responsibility and directly counter the negativity of different groups of road users, as often expressed on social media, and its potential to increase aggressive behaviour aimed at more vulnerable road users.
5. When you intend to publish the Network Planning Guidelines referred to in the Sustainable Transport Policy Next Steps Delivery Plan.
