Subject: scrutiny

Dear Deputy,

We have posted our recent interview in full on [voiceforprotest](#) together with an account of the latest Economic Affairs Panel shambolic rudeness.

Your comments would be appreciated but it is obvious to me that the scrutiny system falls far short of the standards and aspirations that you seem to believe in.

We should like this blog drawn to the attention of the Media Inquiry group as evidence of the failings in the scrutiny system and of the general inadequacies in the access of the public to government information and activities.

Can you do this directly? It might better ensure that these views are taken notice of!

Regards

Mike Dun
