

Original Covid-19 Strategic Governance Structures

18 March 2020

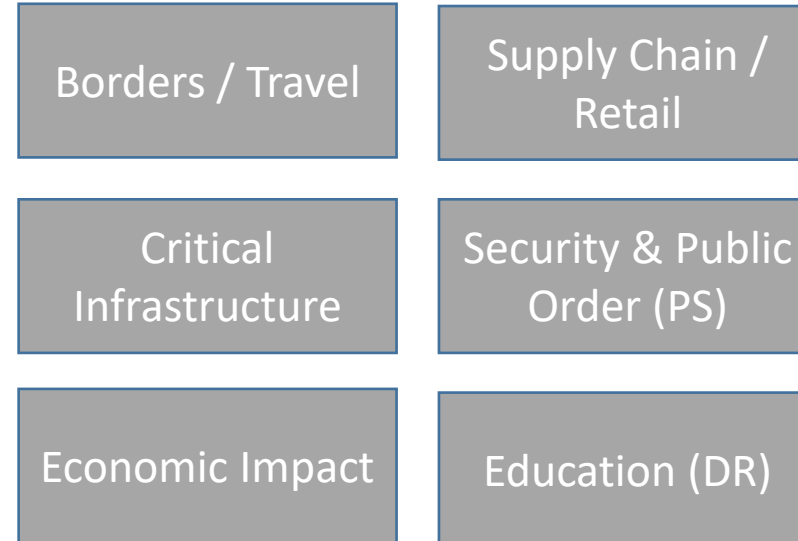

1GCT Workstreams (these varied and were refined as work progressed)

Cross Organisation Workstreams

Departmental Workstreams

Health & Community Service (GK)

Supporting Workstreams

How will it work ?

Cross Organisation Workstreams

Specify the work to be completed
Manage and deliver the work on a day to day basis
Identify and provide the resource to complete the activity working across organisational boundaries
Daily tracking of the work and escalation as appropriate
Escalation is through the 1GCT who will escalate to the appropriate place ie TCG/SCG/ELT/COM

Departmental Workstreams

Manage and deliver the work will be completed by the departments_
The 1GCT Lead will be in regular contact and work as a liaison point between the department and the wider 1GCT to ensure joined up responses.
Identify dependencies workstream
Escalation is through the 1GCT who will escalate to the appropriate place ie TCG/SCG/ELT/COM

1GCT

Health & Community Services

Manage the health related issues of COVID-19 through their command hierarchies
Contact every day with the 1GCT to ensure the most up to date picture is known across government
Priority calls / decisions will be recommended / escalated as appropriate

Supporting Workstreams

Work across all areas
Take the requirements from them all and complete the work as required.
Escalate any conflicting priorities and messages.
The 1GCT will have a lead name from these areas to co-ordinate and support the workstreams.

Decision Making and Governance : Emergency State
