The subject of your CRIA may be a proposed law, policy or proposition and in accordance with the Law is referred to in this template as the '**decision**'
- What is the problem or issue the decision is trying to address?
 - Do children experience this problem differently from adults?

This is an amendment to the proposition which seeks to introduce and develop an age-friendly infrastructure Framework and to allocate political oversight and responsibility for the new Framework to a single Minister (or Assistant Minister).

- 2) Which groups of children and young people are likely to be affected?
Groups of children could include early years, primary or secondary education; young adults; children with additional learning needs; disabled children; children living in poverty; children from particular ethnic backgrounds; migrants; refugees; care experienced children and LGBTQ+ children

No children will be affected by this amendment to the proposition.

- 3) What is the likely impact of the proposed decision on children and on their rights?
- Identify any potential positive OR negative impacts and include indirect impacts on children and their rights as described in the UNCRC
 - Will different groups of children be affected differently by this decision?

There is no further impact on children's rights than in the proposition.

- 4) Is a full Children's Rights Impact Assessment required?
If you have identified impacts on children and their rights, a full CRIA should be completed. If no impacts are identified then a Full CRIA is not required, but please explain your rationale and how you reached this conclusion

A full Children's Rights Impact Assessment if not required for this amendment.
