

Green lanes to remain @ 15 miles. Safety before impatient drivers.

Town area lower to 20 miles on & within ring road. Even @ 30 miles vehicles are still overtaking so they can lane hop, especially from tunnel to Victoria Ave & vice versa.

Victoria Ave & Five mile road 40 miles and install speed cameras. Vehicles at this speed limit still use the outside lane as a speed track to lane hop.

The Island as whole 30 miles. Except where the Parish require speed limits. The roads in the Island are mostly curved and narrow and the road surfaces are poorly maintained,

May I just add that after many years of driving on our roads the worst culprits for breaking the speed limits are Commercial vehicles and Taxis. I would like to see both Fines & Penalty points enforced.

Regards Royston Crocker
