Work and Residence Permits: establishment of working group P.109/2010

THE STATES rejected a proposition of Deputy Paul Vincent Francis Le Claire of St. Helier –

- (a) to agree that a working group of elected States members should be established to review and evaluate the merits of introducing a work permit and residence permit system for Jersey with the following terms of reference –
 - (i) to consider how the current protection of employment legislation compared to other jurisdictions that had similar socio-economic conditions to Jersey, in particular Guernsey and the Isle of Man;
 - (ii) to consider when, and why, work permits would be required to be used in Jersey for non-qualified residents, and if it was thought that they should be introduced, prepare clear guidelines as to the circumstances in which they should be introduced;
 - (iii) to ascertain how the current employment protection measures and housing controls compared with those of Guernsey and the Isle of Man as effective methods of protecting jobs for the residents of Jersey and whether or not there were benefits that could be gained by considering the application of similar controls in Jersey;
 - (iv) to compare rent control mechanisms in Guernsey and the Isle of Man, together with any appeals process, with the current legislation in Jersey;
 - (v) to report on the possible future introduction of a system of restricting the purchasing of property in Jersey to residents of the Island, with the working group taking into account the following matters –

- (A) full and future employment, development and advancement in employment for residents that had established backgrounds on the Island; by allowing them preference over non-residents for job vacancies that arise whether they were in the employment or not of the company whose need arose;
 - (B) the ability for the adult resident population and their children to have access to affordable housing and a reasonable standard of living;
 - (C) the effect that work permits, as opposed to current methods, could have on immigration and the management of the infrastructure and other such related or similar topics as deemed necessary;
 - (D) whether a work permit system could dovetail with a residence permit;
 - (E) whether the proposed migration policy approved by the States in 2005 would, if implemented, achieve a fairer society or whether it would fail to meet the hopes and aspirations of residents in delivering a fair and sustainable society both environmentally and socially and, if so, why;
 - (F) in what way the options identified by the working group could strengthen the migration policy agreed in 2005 or in what way they should replace the policy (if at all);
- (b) to request the Council of Ministers to provide adequate assistance and resources for the working group and to request the working group to update the Assembly on its work and conclusions at regular intervals.
