QUESTION PAPER

(See Item G)

Deputy P.F.C. Ozouf of St. Helier will ask the following question of the President of the Agriculture and Fisheries Committee -

“On the 14th August 2001 the Committee lodged its Agriculture and Fisheries: policy report 2001. Since that time significant further developments have occurred in all sectors of the agriculture marketplace: specifically a significant downturn in the demand and/or price for milk products, new potatoes and indoor tomatoes. Notwithstanding the work of the Policy Report 2001 Review Group set up to clarify and then consider further the concerns expressed by the Policy and Resources and Finance and Economics Committees on the policy report, would the President give the Assembly the Committee's position on the following -

- (a) whether, in the light of these changing market conditions, the above policy report is still valid?
- (b) whether any changes are necessary to the report and policy framework?
- (c) when the Committee intends seeking a date for the report to be debated?”

Deputy G.C.L. Baudains of St. Clement will ask the following question of the President of the Public Services Committee -

“With regard to the recent tendering process for the Island's bus service, would the President advise members -

- (a) of the tender criteria relating to the maximum width of buses, and indicate whether this conforms to the Island's maximum width restriction?
- (b) whether the buses currently ordered by Connex exceed this width?
- (c) if an exemption has been given to Connex, whether the other tenderers were offered the same exemption, and if not, why not?”

Deputy P.F.C. Ozouf of St. Helier will ask the following question of the President of the Health and Social Services Committee -

“At the presentation by the Health and Social Services Committee to all States members on 28th May 2002, it was claimed the department's real growth, when compared to the United Kingdom, was low. Specifically, that for the period 2002 to 2003, the increase was in the region of three per cent.

Would the President explain -

- (a) how the Committee arrived at the figure for real increases in health funding for Jersey?
- (b) how the comparative figure for the United Kingdom was

compiled?"
