**Presented to the States on 19th June 2006
by the Council of Ministers**

STATES GREFFE

COMMENTS

- (1) This amendment is accepted by the Council of Ministers as it clarifies the commitment to ensuring the integrity of the infrastructure into the future, endorsing and strengthening objectives:

2.9 Island-wide transport systems and policies which meet the needs of the community

4.4 Clean air, clean water and uncontaminated land

4.6 Waste systems meet international standards and the use of resources is improved

4.8 A physical infrastructure which supports the economic and social needs of the Island

- (2) The Council of Ministers rejects this amendment.

Under 6.3.1 in the Strategic Plan, the department commits to reviewing ownership of the States owned resources and will pay particular attention to the protection of the services provided and the returns on investment.

Under point 6.3.2 the department has already begun a full review of Jersey Harbours and Jersey Airport in line with the new air and sea transport policy. This review will take into account, ownership options, network of destinations, choice of destinations, cost of travel and the securing of sustainable sea and air links.
