My husband has been fishing for over 30 years , there has always been difficulties with the French vessels fishing in our waters .

But now it's becoming impossible to land our catch in French ports , which is extremely frustrating having to fill a large amount of paper work and wait 24 hours for French authorities approval to land our catch , only to find the French boat who fished along side us and unloads to the same merchant doesn't have to do anything , please can somebody explain why this is being made so difficult for our Jersey fishing fleet . At the moment no Jersey boat is able to unload there catch in France.

We need to protect our fishing industry for future generations but if more licences are given to the French there will be nothing left to fish for .
