

4.8 The Deputy of St. Martin of the Minister for Treasury and Resources regarding the work being undertaken by the Officer Working Group established to consider the various options for the future of Haut de la Garenne:

Will the Minister give an update of the work being undertaken by the officer working group established to consider the various options for the future of Haut de la Garenne and to advise on the cost benefit and any other implications that might arise?

The Deputy Bailiff:

Assistant Minister, you are going to answer in the absence of the Minister?

Deputy J.A.N. Le Fondré of St. Lawrence (Assistant Minister for Treasury and Resources):

I am afraid it is a very short answer. Members may welcome it. The officer working group has commenced its work but is obviously not yet in a position to report given the recent creation of that group.

4.8.1 The Deputy of St. Martin:

Could I ask the Assistant Minister when the working group did meet and who are members of that working group?

Deputy J.A.N. Le Fondré:

As to when the working group met, I am not in a position to comment but I will find out. The group is chaired by the Head of Property Holdings and I will let the Deputy know the other members of that group when I have the information. Thank you.
