

Hi there

I do not fill forms in so will not fill in your online form. However I do have strong views on this as do many others.

Many, who just want convenience will gladly say paying by card is easier, generally those are the people that are completely unaware of the intent to bring in cbsd's, or the implications of such a thing. Many like myself have great concerns regarding cbsd's and a cashless society.

Hopefully the deputies will support those however small or large a number of people that wish cash to remain. They have just as much rights as anyone else and it definitely should not be a case of deciding to go cashless just because there are a majority who are lazy or not interested in looking in the the implications.

Thank you for your time.

Jayne Cullen
