

Diane Rolland, 22nd June 2019

- Yes population control needed - we can't afford to look after more and more people - housing/jobs/education/health and social care
- We need to increase taxation of high earners and the extreme wealthy and business and
- Stop over taxing middle earners to pay for everything
- Stricter management of social housing and benefits
- Increasing population often encourages older family to follow and obviously the family grows too increasing pressure on services
- We can't cope with the numbers we have, where will we put more schools/hospital services ?!!!
- More people more vehicles more blockage of roads, pressure for parking, pollution
