## 1. INTRODUCTION

I am pleased to report on the performance of the Jersey Prison Service during 2017.

Prisoner numbers remained low throughout the year and down on the previous year, with the daily average decreasing from 140 to 136 and peaking at 144 in comparison with 157 in 2016.

No juveniles were admitted to La Moye in 2017 and the number of young offenders (aged 18–20) was low, with 10 admissions on remand and only 2 convicted.

The Prison was inspected by HMCIP for England and Wales in September and we received what the Chief Inspector described as “a good report on a good prison”. In HMCIP’s Annual Report for 2016/17 (1<sup>st</sup> April 2016 - 31<sup>st</sup> March 2017), 31 closed prisons were inspected and none of them received the highest level of assessment in regard to aspects of the prison regime brigaded under ‘Respect’ and only 2 prisons (both of which are C category prisons dedicated to working with sex offenders) received the highest level of assessment for ‘Safety’. La Moye received the highest level of assessment in both these areas.

Although we recorded an increase in prisoner on prisoner assaults, none were serious and levels of violence in La Moye continued to be very low.

Our drive for efficiency and success in this regard is once again evidenced by the fact that our net expenditure for 2017 was less than it was in 2010.

The Prison Service continued to benefit from excellent partnership working arrangements with the States of Jersey Police, the Honorary Police, Customs and Immigration department and the Probation and After-Care Service. We also continued to benefit from incredible support from a number of voluntary groups including the Samaritans and the Freedom for Life, Cornerstone and Elim Rock Ministries.

In conclusion, I am delighted to report on another excellent performance by the Jersey Prison Service and I take this opportunity to thank the staff at the Prison for their commitment and support during 2017.

**Bill Millar**  
**Governor**

## **2. MISSION STATEMENT**

- H M Prison La Moye will provide a healthy, safe, secure and stimulating environment for all who live and work here. Prisoners will be encouraged to address their offending behaviour and to become involved in education and work related training, which will enable them to live a law-abiding and purposeful life in custody and after release.
- Supportive relationships with families will be facilitated in order to maintain the positive links that will ensure a successful return to the community. In partnership with other agencies, the Prison will provide effective ways to reduce crime and its resultant social and economic costs.
- Our aim is to be a model of best practice and an exemplar for other prisons.

## **3. PRIMARY AIMS**

- Protection of the public by keeping in custody those persons committed to us by the Courts in a safe, decent and healthy environment.
- Reduce re-offending by providing constructive regimes, which address offending behaviour and which improve educational and work skills.
- Supporting offenders' positive relationships with their families in order to assist their successful return to the community.

## **6.2 Changes and events in 2017**

- 6.2.1 September 2017 saw the retirement of La Moye's Head of Learning and Skills after ten years of service to the prison. His contribution to the development of the prison regime over that period was hugely significant and commendable.
- 6.2.2 In March the annual Inside Out Art Exhibition was held at the Harbour Gallery. It was opened by Jersey's Lieutenant Governor, Sir Stephen Dalton. Once again, there was a wide range of work at various levels on display and the public response to the exhibition was extremely positive.
- 6.2.3 In August, Oddsocks Theatre Company, funded by Jersey Arts Centre, made their annual visit to the prison, running two very successful workshops. This generated more interest in drama and two groups of prisoners entered into the annual Jersey Eisteddfod Autumn Festival of the Performing Arts drama section. Both groups achieved Gold Certificates from the independent adjudicator and one of them won the 'ACT Pot' which is awarded for the best performance by adults of an unpublished script.
- 6.2.4 In June, Jersey Arts Centre delivered creative writing workshops with authors Adrienne Dines and Barbara Large MBE. Times journalist and best-selling Author Rachel Kelly visited the prison at the beginning of October as part of Jersey Festival of Words. She gave a talk to prisoners based on two of her books on practical steps for dealing with depression, which included the latest scientific research around eating well and taking exercise. Alexa Radcliffe-Hart also visited the prison as part of Jersey Festival of Words. She provided creative writing workshops to K and J wing which were well received. Both these workshops were funded by the Jersey Literary Festival Association in preparation for the prisoners to produce an anthology of poems, short stories and art in 2018.
- 6.2.5 Continuing with the theme of creativity, in November, seven prisoners received highly commended certificates from the Koestler Award for the Arts. Two were for poems and the remainder were for a group drama performance.
- 6.2.6 During 2017, External Verifier reports from City and Guilds, Scottish Qualifications Authority, British Computer Service, Ascentis (Open College Network), British Industrial Cleaning Society and Highlands College have all been very positive. This enables all of the prison's exam board courses to be OfQual accredited.

## **6.3 Learning opportunities**

- 6.3.1 A core curriculum was accessible to all prisoners. This consisted of a minimum of:
- 1 Functional Skills lesson per week
  - 1 ESOL lesson per week (for those that do not have English as a first language)
  - 1 ICT lesson per week
  - Additional ICT lessons linked to ECDL training
  - 1 Open Learning tutorial per week for those on programmes
  - 1 Art lesson per week
  - 1 library session per week, plus one other for those engaged in learning programmes

- A programme, offered in rotation, of Level 1 and 2 vocational training in painting, carpentry and brickwork; each of the courses are full-time and 6 weeks duration. Industrial Cleaning Training for all prisoners employed as cleaners in La Moye.
  - Enhanced prisoners receive 4 recreational, Fitness Centre sessions per week and 3 recreational, Sports Hall sessions per week; standard prisoners receive 3 and 2 sessions respectively.
  - A fitness referral programme linked with Health Care – those placed on this are not able to access main stream PE activities but receive 3 fitness and 1 general sports session.
  - A programme, offered in rotation, of accredited sports courses in a variety of disciplines, some using Community Sports Development Officers, others linked to gaining industry standard vocational training qualifications.
  - An arts exploration course is offered to a targeted group of prisoners; this has a specific therapeutic element that links in with the work of the psychology department.
- 6.3.2 Teaching the functional skills of literacy, numeracy and ICT was the main priority. All new prisoners received an induction interview within the first week of entering the Prison. These interviews link into the sentence planning process. All prisoners embarking on learning and skills programmes must complete the Basic and Key Skill Builder (BKSB) assessment. The outcome of these assessments determines the level of support provided by the department to the individual during the course.
- 6.3.3 The library facility is accessible twice a week to all wings on a fixed timetable; in 2017 there were 3009 visits from prisoners to the library and 4119 books were borrowed.
- 6.3.4 The Learning and Skills Department maintained accreditation with several examination boards, allowing the prison to administer and invigilate a wide range of public examinations and to deliver OfQual accredited qualifications. Accreditation is in place for:
- *Scottish Qualifications Authority (SQA)*
  - *Central YMCA Qualifications (CYQ) Sports Leaders Awards*
  - *Junior Football Leaders Awards (JFL)*
  - *English Basketball Association Awards (EBA)*
  - *Ascentis (Open College Network)*
  - *the European Computer Driving Licence (ECDL)*
  - *British Institute of Cleaning Science (BICS)*
  - *Oxford, Cambridge and RSA Examinations (OCR)*
  - *Assessment and Qualifications Alliance (AQA), University of Cambridge ESOL.*
- 6.3.5 Approximately 15% of the prisoner population were engaged in open learning. This is considered to be a high percentage by general UK standards, according to the Prisoners' Education Trust, which is a UK charity that provides funding for Open Learning courses throughout UK prisons. After six years of study, one prisoner gained an upper second class degree in Philosophy and Psychological studies and another four were working on Open University degree courses. All received over 85% in their initial assignments which equates to a solid "first" at degree level.
- 6.3.6 Provision for the female prisoners was increased in 2017. In addition to the regular timetable offering of Functional Skills, Open Learning, ICT and Art, prisoners were offered lessons in Music, Dance and Stretch, Sewing Crafts and Cookery (delivered by the prison Catering Team).

## **6.7 Employment**

6.7.2 The production for sale in 2017 from the horticultural unit included a wide range of bedding plants and shrubs, herbs and vegetables and the ever popular poinsettias and cyclamen for the Christmas market.

6.7.3 Working in partnership with the Environment Department a high number of bird boxes, bat boxes and hedgehog boxes were produced from recycled pallet boards. They were distributed at no cost to the community through the Environment Department and directly from the prison.

## **6.8 Staff development**

6.8.1 Learning & Skills staff are being provided with training once a month throughout the year. The training covers a variety of subjects and is an opportunity to refresh our knowledge and share good practice. Sessions have been delivered by a range of staff from within the department, enabling sharing of good practice. They have also provided training for uniformed staff in Preferred Learning Styles and Special Educational Needs.

142 members of staff have completed the training.
