

Hello All

You know my thoughts & feels on this from the outset as I mentioned back in 2018 this I maintain is the wrong place for this I suggested St Saviours Hospital because no height or expansion restrictions the Gen to become State of Art Medical Centre with A & E including the Overdale complex the upheaval this will cause to Bowling Club & Residents plus The access road and other important details is totally ridiculous I did apply to join the hospital panel but was refused point blank not being suitable

I still maintain it's the wrong location and believe me we could have already began building on the site I wished it to be
