*Dear Derrick,*

Thank you for your letter of 26<sup>th</sup> ult.

I shall be very happy to come up to the RJA&HS headquarters to meet you and James. What I cannot really, at the moment, comprehend is how the Council, as it would seem, have ignored the views of its members and come to the conclusion that they have. Surely at the very least it would have been proper to write to the membership to advise them of this so that the membership in general could decide what course of action to take.

Yours sincerely

  
P. R. Le Cras.
