Comments

The Planning and Environment Committee decided to establish guidelines and a design guide for the whole of the Waterfront (excluding La Collette on which the Committee has lodged a separate proposition), involving full public consultation on 3rd of February 2000. This decision was publicised at that time.

The Waterfront 2000 event, organised by the Committee in collaboration with WEB Ltd., was held on 23rd to 25th June 2000, and our architects will report back to the Committee with a cohesive plan and design guidelines for the areas referred to in the proposition.

As the petition requests the Committee to do something which it had decided to do before the petition was launched, there is nothing on which the Committee can justifiably comment further.
