

I don't believe the States of Jersey should charge for policing events like jersey live. I feel the States of Jersey is coming up with anything to not let the people of Jersey enjoy themselves without being ripped off by the states. Who pays for the states members trips away to conventions and other trips that cost the tax payer and yet nothing good ever really comes from it. (Nothing)

Who picked up the cost the other year for the entire ministers to stay at the L' Horizon for a weekend so they could eat, drink and have a good time? Us the tax payer that's who! Would that money not been better spent on over policing jersey live?

I'm Jersey born like my parents; I have two children and am now thinking of moving away because of how this Island is being run into the ground.

Our currant State members are a waste of time.

Regards
Carolyn Connor
