Absent

In attendance M. Robbins, Scrutiny Officer

Item (Ref Back)	Agenda matter	Action
1	<p>Projet 45/2006</p> <p>The Panel convened specifically to discuss the approach it was to take on Projet 45/2006. Whilst considering how to deal with the location of the future Waste Plant without knowing what the plant was to be, the Panel deliberated on what outcome it desired for the Projet.</p> <p>The following points were discussed -</p> <ul style="list-style-type: none"> a) Part one of Deputy Duhamel's amendment which made reference to the States' Act dated 13th July 2005, agreeing that the then Environment and Public Services Committee, be charged to fully investigate alternative and conventional technologies to provide a final disposal route for the residual waste following the implementation of the systems and facilities agreed for the recycling and composting of waste. The then Committee was further charged to recommend a preferred solution for a replacement of the Bellozanne incinerator to the States, with an accompanying cost/benefit analysis, environmental and health impact assessment, no later than December 2008; and to agree any such technologies for the final disposal route for the residual waste. b) Part two of the same amendment requiring favourable Strategic Environmental Assessment, to be received and endorsed by the States. c) Why the debate was taking place at this time d) Whether a deferral would be possible <p>The above issues had been considered prior to the Panel being able to formulate a structured and cohesive plan for presentation to the States.</p> <p>The Panel closed the meeting due to being inquorate.</p>	None
