In attendance	Connétable Mark Labey, in attendance as a prospective member of the Panel Nicola Heath, representing the Jersey Student Loans Support Group – Item 2 only Ben Sandeman, Senior Policy Officer, Strategic Policy, Planning and Performance (SPPP) Department - Item 3 only Katherine De Carteret, Committee and Panel Officer Ben Walker, Research and Project Officer

Agenda matter	Action
<p>1. Records of Meetings</p> <p>The Panel approved the records of its meetings held on 25th July and 3rd August 2022 and noted the file note of the informal meeting held on 2nd August 2022.</p>	
<p>2. Student Loans Support Group</p> <p>The Panel welcomed Ms. Nicola Heath representing the Jersey Student Loans Support Group ('JSLSG') (the 'Representative') to the meeting.</p> <p>During the meeting the Representative provided an overview of concerns and the challenges that were facing Jersey students in higher education and their families. The following matters were discussed:</p> <ul style="list-style-type: none"> • The Government's proposed 'mini-budget': It was stated that the mini-budget proposition did not include any support for higher education students who were experiencing significant challenges in meeting the cost of living, especially when based in the UK. The JSLSG had submitted evidence to the Corporate Services Scrutiny Panel for consideration as part of their review. • Government's promised review of student finance has not been undertaken: The JSLSG had contact with the previous Education Minister(s) to follow up about the review of student finance and higher education funding (note: reference to P.33/2018, as amended). Aspects which had not been evaluated included the suitability of a 'stepped' system with particular impacts for those on the edges of the income bands and, also, the lack of student bank loan options. • Uplift to the student maintenance grant has not kept pace with the cost of living: The most recent uplift of 2.9% as a result of the Education (Grants and Allowances) (Amendment No. 3) (Jersey) Order 2021 has not matched 	

<p>increases in RPI% over the same period. The Representative referenced that the UK RPI increase over the same period was 16%.</p> <ul style="list-style-type: none"> • Changes for separated families: Previously a single parent household had been assessed on one income within that household, however, subsequent changes were made to the way in which parental income is assessed under the scheme. It was confirmed that the income of both parents (in the event of divorce or separation) needed to be considered for higher education grants. • Postgraduate funding: There was no regulation for the use of public money in the use of postgraduate funding and the scheme in place had not been reviewed for over 20 years. <p>The Panel thanked the Representative for her time and she left the meeting.</p>	
<p>3. Draft Marriage and Civil Partnership (Amendments) (Jersey) Law 202-</p> <p>The Panel welcomed the Senior Policy Officer, SPPP, to the meeting. The Senior Policy Officer provided the Panel with a briefing on the proposed Draft Marriage and Civil Partnership (Amendments) (Jersey) Law 202- (the 'Amendment') and was advised that the Minister for Home Affairs intended to lodge the Amendment shortly, so that it would be included on the Order Paper for the States Assembly sitting on 4th October 2022.</p> <p>The Panel was advised that the draft Law was required to amend both the Marriage and Civil Status (Amendment) (No. 5) (Jersey) Law 2022 (P.6/2022) and the Civil Partnership (Amendment) (Jersey) Law 2022 (P.7/2022) ('the Laws'), which were both approved by the States Assembly in March 2022, but are yet to receive Royal Assent.</p> <p>The Panel was advised that, following States Assembly approval, the Laws had been sent to the UK Ministry of Justice for review ahead of presentation to the Privy Council. At this point an issue was identified with the schedules used in each of the Laws that made them non-compliant with the European Convention on Human Rights, following the ruling in the case of <i>B and L v. United Kingdom</i>.</p> <p>The purpose of the draft Laws is to primarily address the identified issue. The Panel understands that the Laws will not be presented to the Privy Council for Royal Assent without compliance with the provisions set out in the European Convention on Human Rights.</p> <p>The Panel had a number of queries in relation to safeguarding and these were responded to by the Senior Policy Officer.</p> <p>The Panel requested its officer to draft a comments paper in relation to the Amendment.</p> <p>The Panel thanked the Senior Policy Officer for his time and the briefing ended.</p>	<p>KdC</p>
<p>4. Scrutiny Member Training: Update</p> <p>The Committee and Panel Officer (CPO) provided the Panel with an update on the status of the Teams, Outlook and media training that had been previously requested for some members. The CPO requested clarification of each members' requirements. It was confirmed that the sessions were in the process of being arranged with external training providers.</p>	

<p>5. Correspondence with the Minister for Children and Education</p> <p>The Panel noted the written response dated 2nd August 2022, from the Minister for Children and Education. The letter had been received in response to the Panel's letter of 25th July 2022 querying, <i>inter alia</i>, the Minister's priorities for the next six months.</p> <p>In addition to Ministerial priorities, the letter had asked questions about school closures in extreme heat, teacher recruitment and retention, and the Children's Service.</p> <p>The Panel noted that it would meet the Minister informally in September 2022, ahead of the first public quarterly hearings (which would likely be scheduled for October).</p>	
<p>6. Correspondence with the Minister for Home Affairs</p> <p>The Panel noted the written response dated 10th August 2022, from the Minister for Home Affairs. The letter had been received in response to the Panel's letter of 25th July 2022 querying the Minister's priorities for the next six months.</p> <p>The Panel noted that it would meet the Minister informally in August 2022 ahead of the first public quarterly hearings (which would likely be scheduled for October).</p>	
<p>7. Site visits / briefings with the relevant Ministers and Departments</p> <p>The Panel noted the schedule of site visits which had been arranged so far for August and September 2022.</p> <p>The Panel had already undertaken visits to CAMHS (Child and Adolescent Mental Health Services) and the Customs and Immigration Service and had also planned visits to: the States of Jersey Police; States of Jersey Ambulance Service; States of Jersey Fire Service; and Probation and After-Care Service during August 2022. Further activity was planned for September.</p> <p>The Panel agreed to share that they had undertaken the visits in a social media post towards the end of August.</p>	<p>KdC</p>
<p>8. Work Programme</p> <p>The Panel noted the template work programme that would be used to plan the Panel's future work and reviews going forward.</p> <p>The Committee and Panel Officer explained that this was a 'live' document, maintained by the Panel's officers and that would be regularly shared with the Panel to help them identify current and known upcoming workstreams for scrutiny panel work. It was also noted that the document would be shared with the Scrutiny Liaison Committee on a regular basis.</p>	
<p>9. Future Meetings</p> <p>The Panel noted its next scheduled meeting was due to take place at 10am on 5th September 2022 in the Le Capelain Room of the States Assembly building.</p>

In attendance	Item 1 only: Simon Harrison, Coordinator, End Cannabis Prohibition Jersey Campaign Katherine De Carteret, Committee and Panel Officer Ben Walker, Research and Project Officer

Agenda matter	Action
<p>1. Meeting: End Cannabis Prohibition Jersey</p> <p>The Panel received Simon Harrison, Coordinator ('Coordinator') of the End Cannabis Prohibition Jersey ('ECPJ') Campaign for a meeting to discuss the work of the ECPJ to promote reform of the Island's approach to cannabis.</p> <p>The meeting was led by the Coordinator, who informed the Panel that he was a representative of the ECPJ and had been in contact with many States Assembly candidates during the 2022 elections in Jersey.</p> <p>It was advised that the ECPJ began lobbying for cannabis related issues in 2019, that concerned the legalisation of medicinal cannabis, improvements in patient access to medicinal cannabis and on-Island research related to drug issues in Jersey.</p> <p>The Coordinator informed the Panel that the previous substance misuse strategy had concluded at the end of 2019, and advised that the ECPJ then requested an update on the development of a new substance misuse strategy from the Health and Community Services Department in 2020, and that this correspondence had been unsuccessful, and led to the ECPJ liaising with the previously constituted Children, Education and Home Affairs Scrutiny Panel. It was advised that there had been a lack of information and resources related to substance misuse on the Government of Jersey website and that the previous substance misuse strategy had not been updated or replaced. It was also advised that the Coordinator was concerned about the terminology used to describe drug issues, such as 'misuse' and 'abuse' which only accounted for drug related issues once they became problematic. It was further advised that the Coordinator was concerned that the Minister for Home Affairs ('Minister') had recently announced the development of a 'substance misuse strategy', rather than a 'substance use' strategy.</p> <p>The Panel noted that the Minister had commented on the need for appropriate language and harm reduction in relation to drug issues and asked whether it was important to limit the breadth of any future substance strategy. It was advised that</p>	

any drug strategy had to be broad to ensure it addressed the wide range of issues that affected people with drug related problems.

The Panel asked what should be regarded as a substance, and whether a substance use strategy should also include alcohol. It was advised that a substance use strategy should be a combined drugs and alcohol strategy and made reference to the combined alcohol and drugs strategy developed in Guernsey. It was also advised that a combined strategy should promote healthy lifestyles and wellbeing, and that there had been a lack of on-Island resources to educate people about the impacts of drug and alcohol.

The Panel questioned why the Coordinator believed there was a lack of available resources and information on drug related matters. It was advised that the crossover of responsibility for substance misuse between different Government Departments, potentially created challenges for Government in the development of resources and provision of information.

The Panel noted that discussion about decriminalisation of cannabis in Jersey would lead to some concerns about the outcomes of decriminalisation and asked what the answers to those concerns were. It was advised that research undertaken in other jurisdictions did not evidence an increase in the number of young people using cannabis but did show an increase in cannabis consumption by pre-existing cannabis users. It was also advised that whilst there was some evidence of an increase in cannabis use following decriminalisation in other jurisdictions, there was also evidence of a corresponding decrease in the use of more harmful drugs. It was further advised that appropriate regulation was crucial to ensure control over the marketplace following decriminalisation of any controlled substance.

The Panel expressed concern about the black-market economy and the illegal resale of medicinal cannabis and asked how this could be deterred. It was advised that the illegal resale of medicinal cannabis was unique to Jersey and that there was an on-Island 'cannabis sharing culture'. It was also advised that the Coordinator believed the only means to remove the black-market element, was to allow Islanders to grow cannabis at home, and cited Luxembourg as an example of another jurisdiction that enabled residents to legally possess and grow cannabis, to eliminate the black market.

The Panel asked the Coordinator to summarise the main points that ECPJ had campaigned for. It was advised that ECPJ campaigned for the progression of a new substance use strategy for Jersey and the removal of terminology related to 'misuse' and 'abuse', a public consultation on drug related issues and to highlight that decriminalisation of cannabis already existed in part in Jersey, through the development of Attorney General directives over the past 25 years, that meant that Islanders were able to possess up to 15 grams of cannabis without a criminal conviction, and were instead issued fines and warnings through the Parish Hall Enquiry system.

The Panel thanked the Coordinator for this time, and they concluded the meeting.

2. Records of Meetings

The Panel noted and approved the records of meetings held on 11th, 15th, 16th and 18th August 2022, and the file notes from 11th, 16th, 18th and 25th August 2022. The Panel requested that the Officer make an amendment to the 25th August 2022 file note.

<p>4. <p>1. Site visit to Grouville School</p> <p>The Panel, together with the Minister and Assistant Minister for Children and Education, received a tour of Grouville primary school from the Headteacher.</p> <p>It was explained that the school had a two form entry for children from Reception to Year 6 and also incorporated a pre-school nursery, which had a dedicated space and outside area. The Panel visited the classroom and library space and were also given the opportunity to speak to some children in the learning environment.</p> <p>The Panel viewed the school hall and heard about the proposed plans for the delivery of hot school meals and the addition of a servery. The Panel heard about the challenges that the school had with the size of, and sound within, the hall and storage space throughout the school building.</p> <p>The school had a variety of excellent outside areas to enhance the learning environment for the children. There were separate garden play spaces for the nursery and reception classes, together with a playground, artificial grass space and a grass field available for the whole school. The school also benefited from the use of an adjacent meadow, Le Pre Arthur, which was used for a range of outdoor learning. The Headteacher explained that the meadow was owned by a trust and was managed and operated by a team of volunteers. Maintenance of the meadow was largely financed through sponsorship and fundraising.</p> <p>Vehicle access to the school for drop off and collection times was noted to be a particular challenge but was currently managed by providing different year groups with specific drop off and pick up times.</p>

Present	Deputy Catherine Curtis, Chair Deputy Beatriz Porée, Vice-Chair

Agenda matter	Action
<p>1. Records of Meetings</p> <p>The Panel noted and approved the records of the meeting held on 26th September 2022.</p> <p>The Panel considered the draft file notes from 26th September 2022 and the Chair requested a further addition. The Officer undertook to draft the change and re-send the file note to the Chair for approval.</p>	<p>KdC</p>
<p>2. Unite, the Union</p> <p>The Panel welcomed Mr. James Turner, representing Unite, the Union ('Unite') (the 'Representative') to the meeting.</p> <p>The Panel had invited the Representative to meet with them as part of its introductory programme to the Panel's remit of work. During the meeting, at the request of the Panel, the following matters were discussed with the Representative:</p> <ul style="list-style-type: none"> • Recruitment and retention of staff, by the Government of Jersey as an employer: the Panel indicated that this matter had been highlighted to them as an issue for a number of Government Services. • Trainee schemes: The Government's apprenticeship scheme and the Paid Training Initiative through Back to Work was discussed. The Representative advised that Unite had actively promoted the initiative to employers, but there was no indication of what the take-up rate had been. Attendees also discussed the rate of minimum wage for trainees and the importance of succession planning and training. • States of Jersey Ambulance Service (SoJAS): The Panel explained that it had been made aware of concerns in relation to the SoJAS, namely that it had recently had to operate with low levels of qualified frontline staff. The Representative confirmed that Unite, the Union was aware of these problems through their representatives. It was noted that the Panel had sent a letter to the Minister for Home Affairs on 28th September 2022 and were expecting a response during the course of the week. • Working conditions: Minimum holiday entitlement had recently increased in Jersey, however, it was stated that this still fell below the entitlement in the 	

UK. Other work benefits could be provided by employers in addition to cash, for example, options for health and dental insurance 'bolt-on' options.

- **Childcare:** Attendees discussed issues arising for employees when work patterns were changed to be less family friendly.
- **Employment of ex-offenders:** In response to queries from the Panel regarding the employment of ex-offenders, the Representative confirmed that he would expect any ex-offender to be treated equally to, and have the same conditions and pay as, other employees. The Representative advised that in his role as a union representative for Prison Officers he understood that the training and rehabilitation offer in the prison had been changed.
- **Zero hours contracts:** The Representative advised the Panel that Unite, the Union did not support zero hours contracts. Whilst it was recognised that there were certain circumstances where a zero-hours contract could be beneficial to both employee and employer, there was also the risk of employees having negative impacts on their life from this type of employment contract. For example, a zero-hours contract would not provide sufficient evidence of income required for a phone contract, or property lease.
- **Minimum wage:** The Panel and the Representative discussed recent changes to the minimum wage in Jersey and conversations about moving to a Living Wage.
- **In work discrimination:** It was noted that, since 2017, businesses with over 250 employees in the UK had to report on the gender pay gap, however, this reporting was not required in Jersey. The Panel was advised that Unite was attempting to drive down the gender pay gap. It was suggested that some businesses were not able to recognise their position until they had undertaken work to see the difference between the average earnings of men and women across a workforce. The Representative indicated that, generally, he was aware of fewer complaints of employer to employee discrimination than employee to employee discrimination.
- **Reach of the union:** The Panel enquired whether the Union had representatives from all work sectors and, also, whether people who worked in Jersey on temporary work permits could become members. The Representative advised that Unite was open to memberships for workers in many sectors, but there was generally less membership from sectors such as tourism and hospitality. The Panel was advised that a community membership was also available for individuals who were not in work.

The Panel asked the Representative if there were any matters that he wished to highlight, and the following areas were discussed:

- **Health and Safety:** including that Jersey was behind UK standards.
- **Employment Law:** The limitation period on unfair dismissal claims in Jersey employment law was 56 days, compared to 90 days in the UK. It was suggested that the 90-day timeframe was tight, and therefore the shorter timeframe in Jersey created further pressure. The Panel was advised that, in some instances, there was not enough time for employees to undertake the process within the available time window.

The Panel thanked the Representative for his time, and he left the meeting.

3. Ministerial Decisions

Since its previous meeting, the Panel had not been made aware of any Ministerial Decisions signed by either the Minister for Home Affairs, or the Minister for Children

<p>and Education. No further Ministerial Decisions had been uploaded to the gov.je website.</p>	
<p>4. Government Plan 2023-2026 and Common Strategic Policy</p> <p>The Panel noted that both the Government Plan 2023-2026 (GP) and the Common Strategic Policy (CSP) were due to be published on 4th October 2022. It was expected that there would be various programmes and areas for the Panel to review within the GP.</p> <p>The Officer reported that the Scrutiny Liaison Committee (SLC) was due to meet during the afternoon of the 3rd of October and would consider the general approach that individual panels should take to both the GP and CSP, to ensure an overhead level of coordination.</p> <p>It was also highlighted that, whilst the GP and CSP were to be published on 4th October, it was expected that some of the underlying business plans and the appendix would not be available for the Panel to review until approximately 17th October 2022. The Officer highlighted that this could truncate the review time available, and the Panel would need to be mindful of this.</p> <p>The Officer confirmed that further details would be circulated to the Panel at the earliest opportunity, including a draft terms of reference and scoping document for the Panel to consider, in due course.</p>	<p>KdC</p>
<p>5. Site Visits / Briefings with the relevant Ministers and Departments</p> <p>The Panel noted the schedule of site visits which had been arranged for October 2022. The schedule included visits to Springfield school, Rouge Bouillon school, HM Prison La Moye, and a re-scheduled visit to Greenfields Children's Home.</p>	
<p>6. Work Programme</p> <p>The Panel noted its draft work programme. As noted above, the Government Plan 2023-2026 was due to be published on 4th October 2022 and it was anticipated that this would be the next significant piece of work for the Panel to address.</p>	
<p>7. Future Meetings</p> <p>The Panel noted its next scheduled meeting was due to take place at 10am on 17th October 2022 in the Le Capelain Room of the States Assembly Building.</p>
