Dear Chair

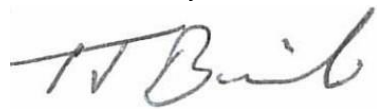

**Re: Outline Business Case and Funding: Future Hospital Review Panel**

I am writing to provide an update on the two remaining recommendations from the Panel's 'Outline Business Case and Funding: Future Hospital Review', which was published on 1 October 2021<sup>1</sup>. Please see the summary updates below and the attached 'reports' for two recommendations that are proposed to be closed.

1. Recommendation 2: this recommendation has been ***superseded by other developments – recommendation no longer valid*** as demonstrated in the attached document 'R02 – Our Hospital Review'.
2. Recommendation 5: this recommendation has been ***superseded by other developments – recommendation no longer valid*** as demonstrated in the attached document 'R05 – Our Hospital Review'.

I trust that the above and attached is of assistance to the panel, and satisfactory justification for the recommendations 2 and 5 to be closed for the reasons mentioned. I would be grateful to receive your written support.

Yours sincerely

**Deputy Tom Binet**  
**Minister for Health and Social Services**
