## **DRAFT AMENDMENT (No. 32) TO THE TARIFF OF HARBOUR AND LIGHT DUES**

### **PROPOSITION**

**THE STATES are asked to decide whether they are of opinion –**

in accordance with Article 6 of the Harbour and Light Dues (Jersey) Law 1947, to approve the draft Amendment (No. 32) to the Tariff of Harbour and Light Dues as set out in the Appendix to the Report of the Minister for Economic Development dated 19th October 2007.

**MINISTER FOR ECONOMIC DEVELOPMENT**

There are no manpower implications and the financial implications are as set out in the report below.

## REPORT

---

It is proposed to increase the dues for –

- (a) arriving and departing passengers and vehicles by 2.5%, in line with Treasury and resources guidelines on States charges;
- (b) leisure moorings, visiting yachts and leisure spaces by 4.3% in accordance with the retail price Index.

### **Passengers and Private Vehicle Dues**

The proposed increase in these charges is made up of 2.5% to meet Jersey Harbour's 2008 budget commitments and in accordance with the Treasury and Resources Anti-Inflation Strategy. Passengers and Private Vehicle Dues income during 2006 amounted to £2.6m and the proposed increase, which is below the rate of inflation, will generate additional projected income of approximately £65,000.

The Minister will continue to commit income from passenger and passenger vehicle landings towards targeting specific areas of ferry traffic in order increase passengers arriving in Jersey.

### **Leisure Dues**

Leisure dues (fees) are recognised as not being directly related to the Island's inflation rate. The Finance and Economics Committee previously commented in the States that: "The Committee believes that it is important that the users of Marinas and moorings do not receive a service subsidised by commercial users of the Harbour or the taxpayer –". It is therefore proposed that these be increased by the retail price index of 4.3%. Leisure Dues received during 2006 amounted to approximately £2.2m and it is therefore estimated that the additional income that will be generated is approximately £95,000.

**Explanatory Note**

---

This amendment to the Tariff of Harbour and Light Dues would –

- (a) increase, by 2.5%, the harbour dues for arriving and departing passengers and vehicles carried on ‘drive on/drive off’ ferries;
- (b) increase, by 4.3%, the dues payable for marina, visiting craft and other mooring spaces.

The dues were last increased one year ago.
