

**WRITTEN QUESTION TO THE MINISTER FOR EDUCATION
BY DEPUTY J.H. PERCHARD OF ST. SAVIOUR
ANSWER TO BE TABLED ON TUESDAY 6th NOVEMBER 2018**

Question

Will the Minister provide a breakdown of the grades achieved in (a) GCSE, (b) A-level and (c) equivalent examinations such as the International Baccalaureate, by subject and by gender in each of the last five years?

Answer

Figures below cover GCSEs, A levels and equivalent qualifications taken at States schools and Private schools in Jersey, with the exception of 2018 GCSE results which are presented for States schools only.

Results are shown against the academic year where pupils finished KS4 and KS5 for GCSEs and equivalent results and A levels and equivalent qualifications respectively. In some cases the exams may have been sat in earlier academic years.

Results have been extracted from GCSE and A level analysis spreadsheets and databases which were generated for the purposes of producing the GCSE and equivalent results report¹ and the A level and equivalent results report² produced annually by the Education Department.

All results presented for 2018 are currently provisional as final results will not be collected from schools until after the October half term which allows time for appeals and remarks to be received and entered into the school computer systems.

Results day information for A levels is presented for 2018. A level equivalent qualification results for 2018 are not currently available at this time as these will not be collected from schools and colleges until after the October half term.

Results have been discounted to ensure that the best grade for each pupil in that subject and qualification type is presented, with the exception of 2018 A level results as pupil level data has not yet been analysed.

Numbers less than 5 have been suppressed to prevent disclosure of potentially identifiable information.
