

Dear Sir or Madam

We would like to add our voices to those calling for the enshrinement in law, the right to use cash in daily life, and the necessity for businesses to accept cash payments.

Not everyone can, or wants to, keep track of their spending online, or using little paper slips, and not everyone wants to compulsorily surrender a proportion of all their spending to banks and credit/debit card providers.

Best wishes

Joya Ghose and Roy Filleul
