Comments

The Human Resources Committee notes that the existing States of Jersey Resource Plan 2002 includes sufficient funding for an additional 38.75 full-time equivalent posts in the Health and Social Services Department with a further 36.25 full-time equivalent posts being requested as a result of the amendment. If the finance is agreed, the implication is that the States also support the creation of the additional posts which have been clearly identified as being dependent on this funding in the amendment from the Health and Social Services Committee. Following the States decision, the Human Resources Committee will discuss the manpower proposals on this basis.
