COMMENTS

The Comité des Connétables are not unanimous in their opinion of the value of the Connétable of St. Helier's amendment. Obviously it will affect the parishioners of some Parishes very differently to those of other Parishes. It will result in the ability of 2 or 3 Parishes to have a significant decrease in their rate due to the increased level of rateable quarters available to them.

Whilst accepting that the proposition seeks to restrict the method in which the £1.84 million can be funded, the majority of Connétables are of the opinion that ultimately the public will pay, and remain concerned that this amount should not be funded equally across the Parishes.

Furthermore, the amendment fails to properly identify the exact financial impact on the rate of each Parish and also whether acceptance of this amendment would affect the ratio of the domestic rate and non-domestic rate in the Island-wide rate.
