Dear Mr. Hales,

Please find enclosed my next monthly letter
to the JET, (which takes about two weeks to be
published) with regards to the planners' proposal for
the new road to go up to the new site for
our hospital via Westmount Road.

I have sent this same letter to Sen. Moore
and to my cousin S. Crowcroft and I would
like you to also have a copy.

With my thanks,
Eric

Eric Fuller.

To: Andy . I.

As the ex-digger drives in the 20.17 battle to save the Peoples Park from being the site of the new hospital. I wish to state from day one, I was always in favour for overdale to be the site of our new hospital.

I think our one you have gone about announcing our new hospital utterly appalling, and with a complete disregard to the residents that will be effected - with the proposed road alterations.

To Senator Farman (I did vote for you at the last election) will you hold a meeting with us the residents that have properties that overlook the park, those at the bottom end of Westmount road and Piersm Road. At present you are only engaging with the residents at the top end of Westmount Road?

The U.K town-planners must realize they are not building the HS2, the new express rail-route that is destroying whole villages and natural habitat.

I urge our project team as well as the planners not to destroy the trees, a strip of land from the Peoples Park, and public parking along the eastern end of the Park.

For ten years I have lived overlooking the park and I can say, I have never seen the

ambulances unable to get through through the road
adjacent to the eastern side of the park. and I
do not see any problems for traffic coming along
this road wishing to turn left to Westmou
Road and on to Overdale - could you add the attached
to all States Members will you please note

Constable Simon Crowcroft proposition to make
Westmou one way, which was passed by 23 votes
to 21, of course the project team and U.K. town
planner, will do all in their power to say this
option will not be viable.

I am still disappointed when the States voted
not to build on the open land at La Collette
FLATS (was it Dep Labey's proposition?), yet to my
utter amazement the open space was built on, despite
the vote not to be able to do so. surely the
Constable's proposition cannot suffer the same fate?

Our States members may like to remember that
Guernsey has just had a election and out of 39 seats
the voters managed to oust our 11 members, also their
assembly ousted our their Chief Minister, Gavin St
Piette and could not find any position in the new
assembly for him.

unlike Jersey, when our then Chief Minister
IAN GORST was ousted, he became our external
relations minister, still in a position of immense
power. Eric Full

← **THE ADDITION**
Would the town planners consider my proposal that could improve the flow of traffic coming from First Town, waiting to use Overdale?

Stop traffic from exiting Kensington Street turning left and sharp left again going along the small road, heading towards West Park Apts. This traffic would have to turn right and head for Gloucester Street, to continue their journey.

Traffic coming from First Town arriving at the Peoples' Park could now join a two lane d. flow of traffic, with the left-hand side for traffic wishing to go to Overdale and the two St. Johns Road?
