INCOME SUPPORT

We have just received our tax assessment, greatly increased for this year for which we thank you.

Why was a decision made to pay Income Support to people who have only been here 5 years. If they cannot afford to live here after that time they should go somewhere else. The period for this handout should be increased each year to the 12 year qualification period, which should not be reduced.

Does this benefit payment included people such as aunties, grannies etc who have never paid tax?

The worst aspect of your generosity with our money is the Rent Rebate Scheme. Whereby tax payers money is transferred to the multi millionaires some of whom own 100 or more properties, and as we know very few of them pay 20% tax.

The other disadvantage is that Rent Rebate Scheme has inflated property values and therefore rents. This benefit should be reduced so that property values and rents can fall all your largesse with our money is just making rich people richer.

In a time of shrinking employment opportunities locals should be employed for whatever jobs there are. This is the perfect opportunity to encourage non locals to leave before they become a permanent drain on tax payer's funds.

States member should repeat this every morning

THIS IS AN OVER POPULATED ISLAND OF 40 SQUARE MILES, WE CANNOT ALLOW EVERYONE IN THE WORLD TO COME HERE SO WE CAN BUILD THEM COUNCIL HOUSES, PAY THEM BENEFITS AND GIVE THEM FREE HEALTHCARE.
